

FSIS 102 - NCXPTR Report Distribution System

Change #1-2011

August 1, 2011

102.01 GENERAL INFORMATION

NCXPTR is a report distribution system which contains many reports that are useful for case management. This section describes how to access NCXPTR, how to define your User Profile, how to view and print reports, and how to logoff NCXPTR.

NOTE: When you see "Press END" on the screen, use PF3 instead.

102.02 ACCESS PROCEDURES

- A. From the State Banner Screen which displays the terminal ID and the Message "IS CONNECTED TO THE STATE NETWORK", key **NCXPTR**. Press **Enter**.

The L22: Logon to NCXPTR screen displays:

```
X ITR L22: Logon to XPTR                                     Node ZDA10739

(Report titles vary depending on your User Profile)

If the V22: Favorites screen does not list all your report, key AFV in the OPT column to the left of MY DIRECTORIES. Press ENTER. Key LR at the command line. Press ENTER. MY DIRECTORIES is expanded to display all the reports in your profile.

- C. Press **PF8** to scroll forward or **PF7** to scroll backward through the list of reports one page at a time.
- D. If you know the name of the report or the prefix of the report you are looking for, you can search the list of reports by entering on the command line, the letter **F** and the report name or prefix enclosed in single quotes (You must be at the top of the list of reports). Press **Enter**.

Ex: f DHREJ
 F 'DHREJ MED REG RUN'

The first report in your list with the prefix or report name you searched for displays at the top of the list. You must still use one of the “options” to display the report.

102.03 NCXPTR LATEST REPORTS OPTIONS

- A. **Command Pro – INITIAL LIST OF REPORTS**
 This command allows you to add and/or remove report directories from your User Profile. Refer to VIII below for instructions on modifying your User Profile.
- B. **OPTION B – DISPLAY ON TERMINAL**
 1. Key **B** under the “Opt” column to the left of the report you want to view. Press **Enter**.

2. The message '**Report report name is not available on disk**' appears if the report must be recalled. Press **Enter** to request the report. In a few minutes, key **B** again to the left of the report name. If the report is still not available when you try again, **DO NOT PRESS ENTER AGAIN**. If you press **Enter** again, NCXPTR generates another request for the report. Multiple requests for the same report slows response time. Press **PF3** to exit and return to the V22: Favorites screen.

NOTE: Press **PF3** to exit without requesting the report.

C. OPTION S - LIST REPORT VERSIONS

Use this option when you want to view a version of the report other than the current version.

1. Some reports have more than one version available. For example: If a report is produced daily, each different day's report is a separate version" of that report. This is useful when you need to view a prior version of a report such as Pending Applications and Emergency Cases Report.
2. Key **S** to the left of the report name to view the versions of the report. Press **Enter**.
3. The list of available versions of the selected report is displayed on the screen.
4. Key **B** under the 'Opt' field to the left of the version you wish to view. Press **Enter**.
5. The **Message 'Report report name is not available on disk'** appears if the report must be recalled. Press **Enter** to request the report. In a few minutes, key **B** again to the left of the version. If the report is still not available when you try again, **DO NOT PRESS ENTER AGAIN**. If you press **Enter** again, NCXPTR generates another request for the report. Multiple requests for the same report slows response time. Press **PF3** to exit and return to the V22: Favorites screen.

NOTE: Press **PF3** to exit without requesting the report.

D. OPTION PRT – PRINT

1. Key **PRT** under the 'Opt' field to the left of report name or version you wish to print. You may also use this command at the top of the report you are viewing. Press **Enter**. The following screen displays:

4. Verify your destination printer. If correct, press **PF3** and your report prints to the printer designated. To verify the report has printed, look for the word "**Printed**" in the upper right corner of the screen.

102.04 VIEWING THE REPORTS

There are options for moving around inside a report on **NCXPTR**. **ALL OPTIONS ARE NOT AVAILABLE IN ALL REPORTS**. Some reports are county specific, meaning you only get the report for your county, and some are not. **NCXPTR** searches the entire report for the criteria entered on the command line (There is no 200 page limit). If you receive the Message "**NOT FOUND IN REPORT**", then the search criteria does not exist in the entire report version. You must format your search criteria exactly like it is formatted on the report.

- A. To find your county's section of a report key **F** followed by a space and '**County XX**' on the **COMMAND** line. (Single quotation marks are only needed if a space exists in the search criteria) Press **Enter**.

Example: F 'CountyXX' Single Quotes needed
F Yancey No Single Quotes needed
- B. To find your district within a report key **F** followed by a space and '**DISTRICT XXX**' on the **COMMAND** LINE. (Single quotation marks are only needed if a space exists in the search criteria) Press **Enter**.
- C. To find a page in a report key **PA** followed by a space and the page number you wish to view on the **COMMAND** line. Press **Enter**. (A report page may require several screens.)
- D. To find a name, word, or number in a report, key **F** followed by a space and **XXXXXX** on the **COMMAND** LINE. Key single quotation marks only if a space exists in the name, word, or number you wish to find. Press **Enter**. For example, to find a certain FSIS Case ID within a report, key **F** followed by a space and 123456789. Press **Enter**.
- E. If more than one match for the search criteria exists, press **PF5** to find the next occurrence.
- F. To scroll forward through a report, press **PF8**. The next screen of the report displays. (A report page may require several screens.)
- G. To scroll backward through a report, press **PF7**. The previous screen of the report displays. (A report page may require several screens.)
- H. Press **PF11** for the right side of a report.
- I. Press **PF10** to return to the left side of a report.
- J. To return to the list of reports, press **PF3**.

102.05 LOGOFF PROCEDURES

To logoff **NCXPTR**, press **PF3** until you get back to the State Banner Screen. You must press **PF3** many times to exit completely.

102.06. SIGNING ON TO NCXPTR FOR THE FIRST TIME

- A. Use these instructions **ONLY** the first time you sign on to **NCXPTR**. Once you have signed on, the G:33 Initial Report Lists screen displays. Press **Enter**.

X 1 G33: Initial Report Lists
Command ===>

The Initial Report List can greatly reduce the time required to connect to NCXPTR. You can prepare a list of reports (and directories if desired) to see when you logon.

Press ENTER to have a list prepared that contains reports you are authorized to see. This process may take several minutes. This is a one-time event. You will not see this screen again. The -PRO command can be used at any time to display and modify your initial report list.

Press END to exit this screen without preparing an initial report list at this time. The -PRO command can be used at any time to prepare your initial report list. If you do not prepare such a list, then this screen is displayed at your next logon.
