

I. The Child Placement and Payment System Manual (CPPS)

A. PURPOSE OF THE CHILD PLACEMENT AND PAYMENT SYSTEM

- 1) To collect information about all children who are in the legal custody of county departments of social services or who are in foster care pursuant to a Voluntary Placement Agreement (VPA), whether an assistance payment is being made via the system.
- 2) To collect sufficient information regarding expenditures made by county departments of social services for foster care assistance payments and to generate reimbursement of state and/or federal funds.
- 3) To collect information regarding children who are placed in North Carolina under an Interstate Compact Agreement.
- 4) To collect information about children who are receiving adoption assistance.
- 5) To collect sufficient information to enable cash payments to be made to adoptive parents.
- 6) To provide case management information about children in the system and provide a mechanism for updating information about each child.
- 7) To collect and transmit information to meet federal reporting requirements.
- 8) To provide data for the purpose of measuring program performance.

B. INTERFACES WITH OTHER SERVICES SYSTEMS

The Client ID number is a common identifier, which links a child's record with other services systems. The Services Information System (SIS) (<https://policies.ncdhhs.gov/divisional/social-services/services-information-system-sis/policy-manuals>) database serves as a master file for all county child welfare agency service clients and maintains general client information which, therefore, does not require duplicate entries in each of the systems. There is an edit on each of the systems that prohibits a client record from being established until a SIS record exists. The county can determine if a SIS record already exists by conducting a name search in the SIS system. Consult the SIS menu screen and Data Entry Manual (<https://policies.ncdhhs.gov/divisional/social-services/services->

information-system-sis/policy-manuals/sis100-dss5027-de-instructions.pdf) for instructions. Counties should use this method of verifying SIS records rather than using locally maintained indexes, which may not be identical to the SIS records and may not show any possible duplicated numbers.

If a child has duplicate SIS numbers in a county, the county should determine if the numbers can be merged. Once counties have identified the SIS number they wish to continue using (the target ID), they will be required to close out any open services on the number to be merged (the source ID) before the system will allow a merge. In rare instances, the system may not be able to merge the two IDs. In those cases, counties should continue to use only the number they have identified as the target ID. A note should be placed in the child's record noting that another ID was also used in the past, and that at the current time, the system will not allow merging. Any additional questions regarding SIS ID Merges may be directed to the Performance Management Section.

C. DSS-5094 FORM

County case managers may enter data directly into the CPPS if they have access to a data entry terminal. Edits are built into the system to assure that all required fields are keyed.

Copies of the blank Child Placement and Payment Report (DSS-5094) may be found at: https://policies.ncdhhs.gov/divisional/social-services/forms?b_start:int=90. Case managers will need to complete this DSS-5094 form and additional pages, in a manner that assures that all the necessary and correct information is available for keying. DSS-5094 turnaround forms will be printed and sent to the county for distribution each time the system is updated.

Establishing and maintaining a current record for each child is the responsibility of the county which has custody or placement authority or supervision authority under an Interstate Compact Placement Agreement, regardless of the child's living arrangement. It should be opened as soon as the county child welfare agency has obtained a type of authority as specified for Field 19 of the form and closed when the county child welfare agency's authority no longer exists. In order for the case to be closed in the CPPS, it is not sufficient to just close the service on the DSS-5027. An entry must be made in Fields 23, 24, 37, and 48 on the DSS-5094 in order to close the case. If a child reenters care, their record can be reopened by completing a new DSS-5094 with the latest placement authority information. For youth aging out of foster care at 18 and completing a Voluntary Placement Agreement, see instructions for closing process and new entry requirements for continuation of placements.

The DSS-5094 must be updated for any change with the exception of Fields 19, 20, 21 and Section IV (Fields 25-33) which are never updated. Changes in Fields 1-4 and 6-13 must be made on the DSS-5027. Field 5 (SIS ID number) can only be changed if a SIS number is part of a SIS ID merge. In this case, the system will change the number automatically as part of the merge process. The system will update the SIS number during a batch process the night after the merge is keyed. Updates to fields 1-13 via the DSS-5027 or a SIS ID merge will not automatically generate a new turnaround form. If an updated turnaround is needed, workers can open the record by selecting option "3," entering the Client ID on the menu screen, and pressing the "Enter" key. "Update" the record by pressing the

PF9 key and the message “PQA20- 5094 UPDATE SUCCESSFUL” will appear. Although no updates have been made directly into the CPPS system, by using the update function within CPPS, a turnaround will be generated that will include the new information updated in the SIS. Note that some changes made in the DSS-5027 SIS system may require an overnight batch process to update. Workers must wait until that process has occurred before attempting to generate a turnaround that displays the updated information.

D. DSS-5095 FORM

County case managers may enter data directly into the Adoption Assistance Payment System if they have access to a data entry terminal. Edits are built into the system to assure that all required fields are keyed.

If data is entered by another unit, the case manager will need to complete the Child Placement and Payment System | Adoption Assistance (DSS-5095) form https://policies.ncdohhs.gov/divisional/social-services/forms?b_start:int=90 in order to assure that all the necessary and correct information is available for keying. In either case, two turnaround forms will be printed and sent to the county for distribution each time the system is updated.

E. HEALTH ASSESSMENT

On the PQ01 screen, option B is used to enter health assessments for children in foster care. Children and youth in foster care are required to complete health assessments at intervals outlined in the [Permanency Planning Manual](#) under “Child Health Summary Components.” The dates for these health assessments must be entered into the CPPS system. Please note, sick visits or doctor’s visits outside of the required Initial 7-day, Comprehensive 30-Day, and annual well-visits are not required to be entered into the system.

To enter data into this field, simply select option B and enter the client ID SIS number. On the health assessment screen, use action “A” to add the assessment date. If dates are entered incorrectly, option “D” is available to delete.

II.

A. REIMBURSEMENT REQUEST DEADLINES

1. DSS-5094 (Foster Care Assistance)

The first preliminary keying deadline for foster care reimbursement is 5:00 PM on the 5th workday of the month. A second preliminary keying deadline is 5:00 PM on the 15th day of the month.

The final keying deadline for foster care assistance reimbursement is 5:00 PM the 19th of the month. If the 19th falls on a weekend or State holiday, the deadline is 5:00 PM on the last workday prior to the 19th.

2. DSS-5095 (Adoption/ Extended Adoption Vendor Payments)

The keying deadline for adoption assistance vendor payments is 5:00 PM on the 19th of the month. If the 19th falls on a weekend or State holiday, the deadline is 5:00 PM on the last workday prior to the 19th.

3. DSS-5095 (Adoption /Guardianship Assistance, Extended Adoption/Guardianship Cash Payments)

The keying deadline for adoption assistance cash payments is 5:00 PM on the 3rd workday from the last workday of the month.

III. DSS-5094 FORM – DESIGN AND FUNCTION

All data on the DSS-5094 must be completed for all children in a county child welfare agency's custody/placement responsibility regardless of the child's living arrangement. In addition, a DSS-5094 must be completed on children from other states who are placed in the county under an Interstate Compact Agreement. The DSS-5094 is separated into multiple sections. Information sections for *County, SIS and Child* can be captured using the DSS-5027 Services form and will automatically populate into the DSS-5094 form.

A. COUNTY INFORMATION AT THE TOP OF THE FORM (FIELDS 1 THROUGH 4)

Complete Fields 1 through 4 for every initial DSS-5094 submitted.

FIELD 1 - County Number (numeric, 2 digits)

No entry is required in this field if already printed on a DSS-5094. When using a blank DSS-5094, enter the standard two-digit county ID code.

FIELD 2 - Case Manager's Name (alpha/numeric, 16 digits)

No entry is required in this field if already printed on the DSS-5094. If there is a change in case manager, update on the DSS-5027. When using a blank DSS-5094, enter the case manager's last name, and first and middle initials.

FIELD 3 - Case Manager's Number (numeric, 9 digits)

No entry is required in this field if already printed on the DSS-5094. If there is a change to the case manager number, it must be updated on the DSS-5027. When using a blank DSS-5094, enter the valid case manager number as obtained from the Services Information System.

FIELD 4 - County Case Number (alpha/numeric, 6 digits)

This is an optional field available to assist the county in filing forms in case records. If a child has a SIS record, the County Case Number from that system will be brought forward. The case number in this system must be the same as the case number in the SIS.

B. SIS INFORMATION (Fields 5 through 13)

Complete this section for all children.

This section contains information related to the SIS data fields on the DSS-5094. If there is a DSS-5027 already entered for this client in the county, only Field 5 needs to be entered on the DSS-5094 (the system will automatically populate Fields 6 through 13 with information already entered on the DSS-5027). Do not complete Fields 6 through 13 for that child. Submit the DSS-5027 to open the new service code(s) or update any fields. If SIS changes need to be made on a child already existing in SIS, use the child's DSS-5027 form.

If the child does not already have a DSS-5027 (SIS record) in the county, one will have to be established. A record should be opened for this child via the DSS-5027 as is done for all service recipients. After the DSS-5027 is keyed, the child's information will populate into the CPPS system once the SIS number (Field 5) is keyed.

FIELD 5 - Client ID (numeric, 11 digits)

Enter the child's SIS ID number. An entry is required in this field for all children.

FIELD 6 - Client Name (alpha/numeric, 15 digits)

Enter the name of the child. An entry is required in this field for all children, however if the child has an existing SIS record, this field will be brought over from that system.

FIELD 7 - Client's Social Security Number (numeric, 9 digits)

Enter the child's social security number. An entry is required in this field for all children, however if the child has an existing SIS record, this field will be brought over from that system.

When the county is unable to identify the child's social security number, enter a zero in each of the spaces across the field and update this field via the DSS-5027 when a Social Security Number has been obtained.

FIELD 8 - Date of Birth (numeric, 8 digits)

Record the month, day, and year of the child's birth. An entry is required in this field for all children, however if the child has an existing SIS record, this field will be brought over from that system.

Use a leading zero for a month or day less than 10. If the child is abandoned or the date of birth is otherwise unknown, enter an approximate month and year of birth, using the 15th as the day of birth.

FIELD 9 - Special Areas (numeric, 2 digits)

Enter the code(s), which reflects special characteristics of the client based on worker judgment, not necessarily legally or medically established conditions. Up to six characteristics or circumstances may be entered for each individual. It is important to enter as many as appropriate because this information is useful for justifying funding needs to meet specific problems. It is also important to update this information whenever there are changes or new special areas that are identified.

FIELD 13 - Grade (alpha, numeric, 2 digits)

For children who are in school, enter the grade associated with their current or most recent attendance. If no longer in school, enter the last grade completed. This field should be updated annually on the DSS-5027.

Code	Value
P	Preschool (including Kindergarten)

C. CHILD INFORMATION (Fields 14 through 18)

Complete this section for all children.

This section of the form pertains to the child's situation at the time he/she was placed in county child welfare agency custody/placement responsibility and must be completed every time a DSS-5094 is opened to show the child has come into the custody/placement responsibility of the county child welfare agency (new cases and reopening of terminated cases). Information in this section must be completed for all cases. Fields 14, 15, 16, and 17 must be updated immediately at any time there is a change or when new information becomes available.

FIELD 14 - Disability (numeric, 1 digit)

Complete for each of the disabilities listed. This field differs from the SIS Special Areas field in that it requires the opinion of a qualified professional.

A qualified professional, as defined by Adoption and Foster Care Analysis and Reporting System (AFCARS), is a person employed by a medical facility or practice, including physicians, physician assistants, nurses, emergency medical technicians, dentists, dental assistants and technicians, chiropractors or a person employed by a mental health facility or practice, including psychologists, psychiatrists, therapists, etc... Any condition found in the Diagnostic and Statistical Manual of Mental Disorders (DSM-V) or any medically diagnosed physical disability should be reflected in Field 14. Attention Deficit Hyperactivity Disorder (ADHD) is entered as "EMOTIONALLY DISTURBED".

- If there has been a diagnosis of a disability(ies) by a qualified professional, enter a "1" in the block beside "DISABILITY".
- If there is no disability, (whether the child was assessed or not) enter a "2" in the block beside "DISABILITY".
- If there appears to be a disability(ies) but a diagnosis by a qualified professional has not yet been conducted, enter a "3" in the block beside "DISABILITY". It is important to change this code as soon as a diagnosis is obtained.
- If a "1" is entered in the "DISABILITY" block, a "1" must also be entered in the block beside the disability(ies) diagnosed by a qualified professional.
- If a "2" or "3" is entered in the "DISABILITY" block, leave all blocks beside the disabilities listed on the form blank.

Code	Value
1	Yes, a qualified professional has clinically diagnosed the disability. Requires that "1" be entered for all the disability(ies) diagnosed.
2	No, there is no disability.
3	Not yet determined. It is important to change this code as soon as a diagnosis is obtained.

FIELD 15 - Adoption Status (multi-part data element numeric)

a. Currently Free?

Code	Value
1	If the child is currently free for adoption, enter "1" in this box. If Code "1" is used, Fields 38 and 39 must be completed. "Currently Free" means that the court has ordered Termination of Parental Rights (TPR) and the 10-day waiting period has passed with no notice of appeal (or relinquishment for adoption has been obtained) on both parents or the case on appeal is resolved.
2	If the child is not currently free for adoption, enter "2".
3	If the child's status is unknown, enter "3". If the child's status is later determined, change to the correct code.
4	If TPR is pending, enter "4". This includes if a TPR petition has been filed on at least one parent or for cases under appeal. Once the court orders Termination of Parental Rights and the 10-day waiting period has passed with no notice of appeal (or relinquishment for adoption has been obtained) on both parents or the case on appeal is resolved, change to the correct code.

b. Previously Adopted?

Code	Value
1	If the child has ever been legally adopted domestically, enter "1".
2	If the child has never been legally adopted, enter "2".
3	Enter "3" if the information is not available. If this information is later determined, change to the correct code.
4	If the child has ever been legally adopted internationally, enter "4".

c. Age at Previous Adoption, Value

If the answer to Previously Adopted is yes (Code 1 or 4), enter the age when the adoption was finalized. If uncertain, estimate age.

If the answer to Previously Adopted is no (Code 2), or unavailable (Code 3), leave age blank.

d. Adoption Dissolved—A child who was previously adopted, including international

adoptions, and enters Foster Care as a result of the court terminating the parents' rights or the parents' relinquishing their rights to the child.

If the answer to Previously Adopted is yes (Code 1 or 4) enter Y ("yes") or N ("no") if previous adoption was dissolved.

FIELD 16 - HIV Status (alpha, 1 digit)

This field identifies the basis for Human Immunodeficiency Virus (HIV) Foster Care Assistance. Complete if the child meets one of the HIV categories as diagnosed by a qualified professional. Otherwise, leave blank. If a county child welfare agency is requesting HIV payment, the request must continue to be made manually. If a county child welfare agency is requesting reimbursement for HIV payments, the request must be made manually using the DSS-5758 form (<https://policies.ncdhhs.gov/divisional/social-services/forms>). Follow submission directions on the form.

Code	Value
E	Perinatally exposed infant 0-24 months who cannot be classified as definitely infected, but who has antibodies to HIV, indicating exposure to an infected mother.
N	Infant, child or youth who meets one of the Center for Disease Control (CDC) definitions for infection but who has no previous signs or symptoms of HIV.
A	Infant, child or youth who shows mild signs or symptoms of HIV.
B	Infant, child or youth who shows moderate signs or symptoms of HIV.

FIELD 17 - Is Client A Parent/Pregnant? (multi-part alpha/numeric)

Enter a "Y" or "N" in the correct block to indicate "yes" or "no" to identify if the client is a teenage parent under the age of 18, male or female, who has had a child and whose rights to that child have not been terminated either through court action, consent, or relinquishment. Field should be updated appropriately if county is seeking an Adolescent Parenting exception under the Families First Prevention Service Act.

a. Parent

Code	Value
Y	Yes, the client has a child(ren). Requires entry for "Number of Children"
N	No, the client has not previously had a child; or, the client has previously had a child, but client's rights have been terminated either through court action, consent, or relinquishment

If client is a parent whose rights to that child have not been terminated, enter in the number of children in the home. If none, enter in "00" (a two-digit number should always be entered in the second part of this field). When the client is no longer considered to be a parent, due to court action, consent or relinquishment, the field should be changed to "N". This field is required for both male and female clients.

b. Pregnant

Code	Value
Y	Yes, the client is pregnant. May only be selected if the client is female.
N	No, the client is not pregnant. If the client was previously pregnant, when she is no longer pregnant, the field should be changed to "N".

FIELD 18 - Special Population (numeric, 1 digit) Enter the appropriate code as it applies to the child.

Code	Value
1	Indian (Bureau of Indian Affairs Federally recognized tribe)
3	Unaccompanied Refugee Minor
5	Not Applicable

D. PLACEMENT AUTHORITY (Fields 19 through 24)

Complete this section for all children.

This section of the form contains the reason that the county child welfare agency obtained custody and placement responsibility of a child. Information in this section must be completed for all cases. Fields 19, 20, and 21 reflect the initial placement authority reason and date. If the agency's custody and/or placement authority ends, Fields 23 and 24 must be completed. If the child re-enters care, a new DSS-5094 must be completed with the reasons for the re-entry into care.

FIELD 19 - Type of Authority (numeric, 2 digits)

Enter the two-digit code, which describes the statutory, or policy basis, which mandates county child welfare agency supervision, care and/or placement of a child.

Once this field is completed, it may not be updated or changed. If custody and/or placement responsibility is terminated and the child(ren) subsequently re-enters custody and/or placement responsibility, a new DSS-5094 must be completed and entered in the CPPS.

If a young adult client enters an Extended Foster Care 18-21 Voluntary Placement Agreement (VPA), then Field 19 must be coded as "12". If a client turns 18 years old while in the custody or placement authority of the county child welfare agency and enters into a VPA upon his or her 18th birthday, then a DSS-5094 must be terminated on the client's 18th birthday to end the foster care episode and a new DSS-5094 opened **the next calendar day** with the appropriate authority code of "12".

Code	Value
01	County child welfare agency ordered to assume responsibility for nonsecure custody by a court of competent jurisdiction (G.S. § 7B-502).
02	Court ordered legal custody, but the county child welfare agency does not have placement authority.
03	Court ordered legal custody with the county child welfare agency having placement authority.
04	Relinquishment for adoption by parent(s) or guardian of the child.
05	Safe Surrender (If using this code, the entry date must be less than 30 days from the infant's date of birth).
06	(Reserved for later use.) Do not use this code
07	Voluntary Placement Agreement with parent(s) or legal guardian(s).
08	Interstate Compact Placement Agreement into North Carolina.
10	Transfer in from another North Carolina county
11	Transfer in from another North Carolina county (placement was originally a VPA) This code is no longer valid for new placements after February 2017.
12	Voluntary Placement Agreement for Extended Foster Care Services (FC 18 to 21)

FIELD 19A – CDJJ [ENTRY REQUIRED IF APPLICABLE]

Enter "X" only if the County Child Welfare Agency has been ordered to assume responsibility of non-secure custody by a Juvenile Delinquency Court Judge. *NOTE: Field 19 must have an entry of "03."*

FIELD 20 - Reason (Alpha, 1 digit)

Enter "X" for all the actions or conditions associated with the child's entry into the county child welfare agency's custody/placement responsibility with the exception of Human Trafficking. If a child came into custody as a result of sexual trafficking "S" should be entered, as a result of labor trafficking "L" should be entered. If a child came into custody as a result of both sexual and labor trafficking, a "B" should be entered. At least one condition must be associated with the child's entry into the county child welfare agency's custody/placement responsibility.

"Child's behavior" includes delinquency and undisciplined behaviors. "Coping" is used for dependent children. Emotional Abuse is coded as "Neglect". This is to satisfy Federal reporting requirements and does not reflect a change in the North Carolina General Statutes.

Once this field is completed, it may not be updated or changed. If custody and/or placement responsibility is terminated and the child(ren) subsequently re-enters custody and/or placement responsibility, a new DSS-5094 must be completed and entered into the CPPS.

If “Domestic Violence” is entered with no other reason code, the system displays the error message: “At least one more authority reason must be entered.” One other placement authority reason code is required when using “Domestic Violence”.

If Human Trafficking is entered, Field 67 “Trafficking Victim” must have a code of 2, if “S” is entered, 3 if “L” is entered, or 4 if “B” is entered.

If Safe Surrender (code 05) is added in Field 19, a code for Field 20 does not need to be entered. The system has been programmed to block Field 20 when code “05” is used in Field 19.

These services help to maintain children safely in their homes (whenever possible) and prevent unnecessary separation of families. This model is characterized by very small caseloads for workers, 24-hour availability of staff, the provision of services primarily in the child's home or in another environment, and intensive, time-limited services lasting no more than 4-6 weeks.

Enter the code to signify if IFPS were provided to the family within the 12 months prior to the child entering the county child welfare agency's custody/placement responsibility.

F. PERMANENT PLAN (Fields 34 through 37)

Complete this section for all children and update whenever the plan changes.

This section pertains to the plan goal of the child and any barriers to that plan.

FIELD 34 - Plan Goal (numeric, 2 digits)

Enter the code which best identifies the most recent Permanent Plan Goal based on the latest review of the child’s case plan, either agency or court review. The Plan Goal describes the desired permanency outcome, which is most appropriate based on current case circumstances.

Code	Value
01	Prevention of out-of-home placement services are being provided to prevent placements in out of home care. The county child welfare agency has custody, but the child remains in the home and has not been in out-of-home placement. Do not use this code for Trial Home Visits. Use Code 02 for Trial Home Visits (or 06 for trial visits with the non-removal parent).
02	Family reunification with parent(s)\caretaker(s) from whom the child was removed. This Code is also to be used when the child returns home for a Trial Home Visit and the county child welfare agency retains custody.
03	Adoption
04	Guardianship with Relative
05	Guardianship with other court approved caretaker
06	Custody with non-removal Parent or Relative. This Code is also to be used when the child is placed for a Trial Visit with a non-removal Parent and the county child welfare agency retains custody.
07	Custody with other court approved caretaker

Code	Value
08	Plan Goal not yet established. (Not appropriate after 30 days – update to another Plan Goal at least by the 30 th day hearing. Code 08 should only be used in exceptional circumstances, as the Plan Goal should be known at the time the agency receives custody or placement responsibility in most cases.)
09	Emancipation – A youth who will be emancipated, or who is 18 years or older who has signed a Voluntary Placement Agreement (VPA).
10	Another Planned Permanent Living Arrangement (APPLA) - A permanent living arrangement for a youth age 14 or over who resides in a family setting which has been maintained for at least the previous six concurrent months; and in which the youth and caregiver have made a mutual commitment of emotional support and the youth has been integrated into the family; and the youth and caregiver are requesting that the placement be made permanent. Other permanency options must have been ruled out.
11	Reinstatement of Parental Rights - Circumstances that allow this option as a permanent plan are outlined in G.S. § 7B-1114 (%20%20). These circumstances are very narrow and require the court’s determination and an order.
12	Completing secondary education or a program leading to an equivalent credential
13	Enrolled in an institution that provides postsecondary or vocational education
14	Participating in a program or activity designed to promote, or remove barriers to employment
15	Employed for at least 80 hours per month
16	Incapable of completing the education or employment requirements due to a medical condition or disability

Custody and Guardianship are judicial decisions.

Long Term Foster Care and Independent Living are not permanent plans.

As long as a minor child is in an agency's custody, the agency must work toward a permanent plan, even if the child's present status is extended foster care. If return to parents or custody or guardianship with a relative or other suitable person have been eliminated as possibilities, and the child has indicated that he or she will not cooperate with adoptive placement, the plan will be custody with other court approved caretaker, code 07 or guardianship with other approved caretaker, code 05.

Code 08 is to be used when the child initially enters care and it is not yet clear what the plan is for that child. Code 08 should only be used in exceptional circumstances, as the Plan Goal should be known at the time that the agency receives custody or placement responsibility in most cases. Code 08 shall not continue past 30 days at which time the Family Services Case Plan, Part B, Case Plan, for the child should be completed. At that time, another appropriate code should be entered.

Code 10 is only valid for a case that includes children ages 14 thru 17. The system will display an error message if a child on the case is age 0 thru 13 and Code 10 is entered in this field.

Codes 12 through 16 may only be used for youth who have signed a Voluntary Placement Agreement for Extended Foster Care Services (FC 18 to 21).

FIELD 35 - Date Plan Made (numeric, 6 digits, MMDDYY format)
Enter the effective date, which corresponds to the current Plan Goal.

FIELD 36 - Barriers to Plan (numeric, 2 digits per barrier)
Enter the code, which describes the negative constraints that must be addressed by agency intervention in order to realize the Planned Goal for the child.

- a. At least a primary barrier must be entered in the first two spaces of this field.
- b. A secondary barrier may be entered in the last two spaces of the field.
- c. Barriers to goal achievement may change as case circumstances and goals change. They should be evaluated at each case review.

Code	Value
01	Inadequate Placement - Current placement resource does not facilitate the goal.
02	Mental Health Treatment - Adequate mental health treatment is not available or in place.
03	Educational Resources - Alternative educational resources are not available to meet the special learning needs of the child.

11	Court not in agreement with permanent plan.
12	Agency cannot assure child's safety if plan achieved.
13	Incomplete Assessment/Evaluation - Need more comprehensive assessment of the child's and/or family problems and needs; or the appropriateness of the current plan needs more evaluation.
14	Unstable living arrangement.
15	Geographic Distance - Work with parent(s), or relative(s) is constrained by geographic distance.
16	Limited Functioning - Family functioning is too limited to assume childcare and nurturing role.
17	Child's conduct/behavior.
18	Child's Readiness – The child is not ready to participate in, accept, and/or support the plan goal.
19	No barriers identified at this time and child is in permanent living arrangement.

When two barriers have been entered and one needs to be deleted, draw a line through the code that no longer applies for data entry person to delete. If two codes are entered in Field 36 and later they are no longer applicable, line through both for data entry person to delete and enter at least one new code.

FIELD 37 - Date Plan Realized (numeric, 6 digits, MMDDYY format)

Enter the date upon which the desired permanency outcome has been reached. This date should not relate to dates upon which the Planned Goal may have been changed but rather, the date upon which a goal has been achieved and no further goals are being planned and the agency no longer has custody or placement responsibility.

If an entry is made in Field 37, there must be an entry in Fields 23, 24, and 48.

G. PARENTAL RIGHTS TERMINATION (Fields 38 through 39)

Complete this section when relinquishment has been signed or when parental rights are terminated.

This section pertains to the Termination of Parental Rights (TPR) either by court action or relinquishment. The date that parental rights are terminated by court action is the date that the court actually orders the TPR either from the bench or the date recorded in the written court order as having been entered by the court. These dates need to be entered immediately as soon as termination is obtained for each parent.

FIELD 38 - Mother TPR Date (numeric, 6 digits, MMDDYY format)

Enter the date of relinquishment to the agency or the date that the court terminated the mother's parental rights. If the mother is known to be deceased, enter the date of death.

FIELD 39 - Father TPR Date (numeric, 6 digits, MMDDYY format)

Enter the date relinquishment to the agency or the date that the court terminated the father's (or putative father's if there is no legal father) parental rights. If the father is known to be deceased, enter the date of death.

If relinquishment is revoked, submit DSS-5094 deleting date(s) from Fields 38 and/or 39. If the Termination of Parental Rights is overturned on appeal, submit DSS-5094 deleting date(s) from Fields 38 and/or 39. If dates are entered in both fields and the child is legally free for adoption, enter a "1" in Field 15 (Adoption Status). If the Termination Reason in Field 23 is Code "03" (Adoption), Fields 38 and 39 are required.

H. CASE REVIEWS (Fields 40 through 44)

Complete this section for all children.

This section pertains to the Permanency Planning Action Team (PPAT) review and Court Review information for a particular case and is updated immediately as appropriate and necessary. Updates must be made in these fields in accordance with State Standards.

Please refer to Permanency Planning in the NC Child Welfare Manual (<https://www2.ncdhhs.gov/info/olm/manuals/dss/>) for specific policy requirements.

FIELD 40 - Date of Last Agency Team Review (numeric, 6 digits, MMDDYY format)

- a. Enter the date of the most current review completed by the agency review team (leave blank if initial review has not yet occurred), or
- b. For children being supervised in North Carolina under the provisions of an Interstate Compact Agreement with another state, enter the date a progress report was provided to the state, which has responsibility for the child.

FIELD 41 - Next Agency Team Review Due (numeric, 6 digits, MMDDYY format)

- a. Enter the date that the next review by the agency team is scheduled, or
- b. For a child being supervised in North Carolina under the provisions of an Interstate Compact Agreement with another state, enter the date that a progress report is due to be sent to the state which has responsibility for the child.
- c. Note that the system will require a future date. Entry of past dates is not allowed.

FIELD 42 - Review Not Required (Court) (alpha, 1 digit)

Enter an "X" in this field if the county child welfare agency's authority to supervise, care for and/or place the child is not subject to review requirements, either statutory review or court ordered review.

There are two occasions when a review would not be required for a child in a county child welfare agency's custody or placement responsibility.

- a. A youth who has been emancipated, or an 18-year-old who has signed a voluntary placement agreement.
- b. When the court has waived the holding of subsequent review hearings as provided in G.S. § 7B-906.1 http://www.ncleg.net/EnactedLegislation/Statutes/PDF/BySection/Chapter_7B/GS_7B-906.1.pdf.

When an entry is made in this field, Fields 43 and 44 must be left blank.

If the child's situation changes and the court reinstates the required reviews, data entry should delete the "X" in Field 42 and new dates should be entered in Fields 43 and 44.

FIELD 43 - Date of Last Review (Court) (numeric, 6 digits, MMDDYY)

Leave blank until adjudication or the court review of a VPA. The first entry will be either the adjudication date or the date of the court review of the VPA. Subsequent entries will reflect the date the case was last reviewed, including reviews, Permanency Planning Hearings, TPR hearings, etc., by a court of competent jurisdiction.

When an entry is made in this field, do not complete Field 42.

FIELD 44 - Next Review Due (Court) (numeric, 6 digits, MMDDYY)

- a. Enter the date that the next court review is scheduled.
- b. Once the date is entered in Field 43, a date must be entered in Field 44. If a date is not entered in this field by the county, or if a date is entered which is greater than the mandated court review requirements, the system will not accept the form.
- c. Note that the system will require a future date. Entry of past dates is not allowed.

When a minor child is placed by authority of a voluntary placement agreement, leave Field 42 blank and enter a date not to exceed 90 days from the date of the agreement in this field.

I. LIVING ARRANGEMENT (Fields 45 through 49)

Complete this section for all children and update when there is a change in living arrangement, whether reimbursement is being requested or not.

This section pertains to the living arrangement status of the child. New data must be entered every time a living arrangement, progress towards permanence, beginning date, ending date, or facility ID changes. There must always be an open living arrangement as long as the county child welfare agency has custody/placement responsibility.

Because it is recognized that multiple changes in a child's living arrangement or placement can occur during a relatively short period of time, space has been allowed to record up to three moves on one form. However, please note that additional living arrangements cannot be opened until the previous living arrangement is closed (Field 48) If additional lines are needed, use a blank form and write "1 of 2" on the side margin of the 1st form and "2 of 2" on the side margin of the second form. This will let data entry workers know it is a two-page entry. Omissions in required fields of this section may affect reimbursement.

Do not include the living arrangement from which the child was removed unless the child remained in the living arrangement after the agency received custody/placement responsibility.

1. Each time a child moves from one placement to another, a new line of data must be entered, regardless if there is an associated change in the assistance payment. Federal reporting regulations require that county child welfare agencies be able to track every move a child makes while in a county child welfare agency's custody/placement responsibility.
2. Updates to placement changes or status should be keyed within 3 working days of the move or status update. Counties should follow processes below (see next steps continued to page 28) to make sure claims for reimbursement of payments are processed correctly.
3. When a child moves from one placement setting to another, even if the type of Living Arrangement does not change, the current line of data must be closed out and the new information must be opened on a blank line.
4. When a child moves to a new living arrangement, Field 46 - Progress Towards Permanence should be updated.
5. For financial purposes, counties will need to close the prior service period, before the living arrangement change, on the last day of that period. For the current period each placement will need to be established with a new line for each placement and each county payment amount

Example: A child's placement changes from DSS home A00001 to DSS home A99999 but the type living arrangement

remains a Code 56 in Field 45. To capture the county payments for reimbursement, do the following:

1. Close out the line of data, which contains the facility ID A00001 for the prior service period.
2. Complete a new line of data for the period from the first day of the month to the last night in placement at A00001.
3. Enter living arrangement 56, carefully review the permanency option for field #46, enter the facility ID, and enter the appropriate payment amount.
4. Open the new placement information line with the correct move code, begin date, facility ID A99999 and payment amounts. Note that the end date of the facility ID A00001 and the beginning date of the facility ID A99999 will need to differ by one day.
5. Update the Placement Provider information in Fields 62 through 66.

45	46	47. Beginning	48. Ending	49. Facility ID	50. Monthly Rate	51. Payment Rate	
Existing Line - Only Update allowed is ending date							
5	6	4	05010X	07310X	A00001	0810.00	0000.00
New Line - Same placement for beginning of period							
5	6	4	08010X	08150X	A00001	0810.00	0391.94
New Line - New Placement information							
5	6	2	08160X		A99999	0810.00	0418.06

6. When the living arrangement type changes, regardless of if the facility ID changes, the current line of data must be closed out and the new information must be entered on a blank line. **Follow the steps needed to capture the correct county payments for reimbursement in the current period.**

Example: A child's living arrangement type changes from 56 (family foster home) to 67 (adoptive home -foster family), but the facility ID remains the same. Close out the line of data, which contains the living arrangement 56 and complete a new line of data using the living arrangement 67. Be sure that the end date of the living arrangement 56 and the begin date of the living arrangement 67 differ by one day.

7. When a child moves from one relative living arrangement to another relative living arrangement, the current line of data must be closed and the information pertaining to the new relative living arrangement must be entered on a blank line. **Effective November 2023, county agencies will need to establish facility ID numbers for the new unlicensed kinship placement.**

Example: A child moves from 52 (Grandmother) to 52 (Aunt). Close out the line of data which contains the living arrangement 52 (Grandmother's data and facility ID number) as of the prior service period. Complete a new line of data for the portion at the beginning of the month, while the client was placed with the Grandmother. Next complete a new line using the living arrangement 52 (Aunt's data and facility ID number). Be sure that the end date of the living arrangement 52 (Grandmother) and the begin date of the living arrangement 52 (Aunt) differ by one day. Then update the Placement Provider information in Fields 62 through 66.

When the Placement Authority is terminated, and the case is closed for Child Placement Services (termination reason should be entered in Fields 23 and 24), enter an end date for the last living arrangement code in Field 48. This date should be the same as the Placement Authority termination date (Field 24). Also, the Date Plan Realized should be entered in Field 37 and should be consistent with the dates in Fields 24 and 48.

Corrections/changes can only be made to data that is within the current reporting period.

When updating forms, if the date in Field 47 of the current placement is not within the current processing month, only Field 48 can be entered on the same line as the current living arrangement.

Example: In this example, the worker wants to make a change to the placement or payment information for September. The date printed in Field 47 for this child’s DSS-5094 is August 1. In order for the worker to enter a change for the month of September, the worker must enter August 31 in Field 48 and then enter a new Living Arrangement line of data in Fields 45 through 47 and 49 through 51 if applicable. For the September month of service, the cutoff for data entry is October 19.

FIELD 45 - Type (numeric, 2 digits)

Enter the appropriate code to describe the living arrangement that the child entered at the time the county child welfare agency became responsible. Wherever a child spends the night of the day the agency receives custody and/or placement responsibility is considered the first placement, and therefore the first living arrangement. Therefore, the begin date of the very first living arrangement should be the same date as the Placement Authority Begin Date in Field 21.

Code	Value

Note 1: Relative is defined by [N.C.G.S. § 7B-101](#) as “An individual directly related to the juvenile by blood, marriage, or adoption, including, but not limited to, a grandparent, sibling, aunt, or uncle.” Relative by marriage can occur even if the marriage has been dissolved by death or divorce. The preceding definition of relative includes relation within the fifth degree of kinship to the child. This includes, but is not limited to, a parent, grandparent, sibling, great grandparent, uncle or aunt, nephew or niece, great-great grandparent, great-uncle or aunt, first cousin, great-great-great grandparent, great-great uncle or aunt, or a first cousin once removed. Also included is any relationship above preceded by step or half.

Note 2: Nonrelative Kin is defined by [N.C.G.S. § 7B-101](#) as “An individual having a substantial relationship with the juvenile. In the case of a juvenile member of a State-recognized tribe as set forth in G.S. 143B-407(a), nonrelative kin also includes any member of a State-recognized tribe or a member of a federally recognized tribe, whether or not there is a substantial relationship with the juvenile.”

Note 3: The change to an adoption living arrangement code should be one day after the Agency Adoption Committee decides that this will be the child’s adoptive family.

Note 4: In practice, “Trial Home Visit” is intended to be a short-term option in preparation for returning the child home permanently. For example, this would be when a child returns to the removal parent as a physical placement, but DSS still has legal authority. It would not be appropriate to use this code when a child is visiting the removal parent/caretaker for a short term (i.e. weekend) with the known intention to then return to the previous placement. The term “trial home visit” is used to be consistent with federal language from [8.3C.5 TITLE IV-E](#) set by the Administration for Children and Families.

For youth who have signed a Voluntary Placement Agreement for Extended Foster Care Services (FC 18 to 21) only the following codes are valid: 53, 56, 57, 58, 60, 61, 62, 68, 69, 70, 71, 73, 74, 77, 78, 79, and 80.

FIELD 46 - Progress towards Permanence and Move status (numeric, 1 digit)

Enter the appropriate code in Field 46 for the placement identified in Field 45. *It is critical that this field accurately reflects the client's current placement's status and type of change.*

Permanence, the ultimate goal, is defined by the placement being legally secure and the Agency no longer having custody or placement responsibility. The placement is not considered to have achieved permanence if the county child welfare agency retains legal custody/placement responsibility. "Progress Towards Permanence" exists when everything is in place for permanence except that the placement is not yet legally secure. Codes "1" and "3" can represent this status for the client.

Example: A child's living arrangement is 56. The permanent plan for this child is now adoption, but TPR has not yet been filed. The foster family has indicated their willingness to adopt this child, therefore the Progress towards Permanence needs to be updated. Close out the appropriate line of data which contains the living arrangement 56 and complete a new line(s) of data using the living arrangement 56 with the begin date as the date that permanence was achieved. Place a 3 in Field 46. Be sure that the end date of the current living arrangement and the begin date of the new living arrangement differ by one day. Follow the steps need to capture the correct county payments for reimbursement in the current period.

Code	Value
1	Move: progress towards permanency. Current living arrangement is considered a move from previous living arrangement. The child is currently in a placement where there is a mutual commitment to a lasting relationship between the child and at least one adult AND <i>the placement is expected to endure until the child reaches adulthood. Everything is in place for permanency except that the placement is not yet legally secure.</i>
2	Move: no progress towards permanency. Current living arrangement is considered a move from previous living arrangement. This move is not progress towards a permanent placement.
3	Not a move: progress towards permanency. Living arrangement code may change, but child is still in the same home; or child may actually go into a temporary living arrangement (i.e., respite care) and child will return to the same placement where there is a mutual commitment to a lasting relationship between the child and at least one adult AND <i>the placement is expected to endure until the child reaches adulthood. Everything is still in place for permanency except that the placement is not yet legally secure.</i>
4	Not a move: no progress towards permanency. Current living arrangement is not considered a move from previous living arrangement. This move is not progress towards a permanent placement. This code should also be used for the initial entry of the DSS-5094 form.

This field is used to identify children who are legally free for adoption and who are not yet in their identified adoptive families (Available for Adoption). It is critical for analysis of this data that this field is kept current. In addition, data is captured concerning placement stability. Incorrect use of codes in these fields can reflect as negative objectives for county agencies.

FIELD 47 - Beginning Date (numeric, 6 digits, MMDDYY format)

Enter the date that the child first entered the placement. This is the first day that the child is in the placement (spends the night). Changes to prior period dates will not be allowed if the service month has processed. Corrections to beginning date is only allowed for the current open service period.

FIELD 48 - Ending Date (numeric, 6 digits, MMDDYY format)

Enter the date that the child moved from the placement. This is the last day that the child is in the placement (spent the night).

Example: Child moves from one placement to another on the afternoon of July 10th. The ending date for first placement is July 9th, the last night of care in that home. The beginning date of the new placement is July 10th, the first night of care in that home.

If the line for living arrangement data is being changed to add another line, the ending date the old line of living arrangement data (Field 48) and the begin date of the new line of living arrangement data (Field 47) must differ by one day. When the Placement Authority is terminated, the last Living Arrangement ending date (Field 48) should be the same date as the Placement Authority termination date (Field 24) and the Plan Goal Realized date (Field 34).

FIELD 49 - Facility ID Number (alpha/numeric, 6 digits)

If the living arrangement identified in Field 45 is a foster care facility licensed by the Division of Social Services, the Division of Mental Health, Developmental Disabilities and Substance Abuse Services, or by the Division of Health Service Regulation (DHSR), enter the identification number assigned to the facility.

Mental Health and Residential Treatment Group Homes must have a valid ID assigned in the Foster Care Facility License System. These IDs begin with an "H" or "R". If the facility does not already have a valid number, the county child welfare agency or the facility must submit an application, along with a copy of the current DHSR license to the Child Welfare Services Section for review and approval.

For Residential Treatment Providers, the form is available online at <https://policies.ncdhhs.gov/divisional/social-services/forms> and providers should follow instructions on the form for submission.

A listing of Residential Treatment homes with DSS facility ID numbers can be found in XCloud under the title: DHRFCF Mental Health Facilities.

For youth who have signed a Voluntary Placement Agreement for Extended Foster Care Services (FC 18 to 21) and are not living in an otherwise licensed placement the following Facility ID codes shall be used.

If the living arrangement identified in Field 45 has been issued a *valid DSS Facility ID number*, enter the number indicated on the DSS license or unlicensed relative form. Valid facility ID numbers are issued for homes specifically licensed by the Division, special Residential Treatment Level 2 to 4 homes through the Division of Health Service Regulation (DHSR), or unlicensed relative placements.

Mental Health Residential Treatment Group Homes must have a valid ID assigned in the Foster Care Facility License System. These IDs begin with an “H” or “R”. If the facility does not already have a valid number, the facility must complete and submit a DSS-5272 application, along with a copy of the current DHSR license to the Child Welfare Services Section for review and approval. This should be sent to the Division of Social Services, Regulatory and Licensing Services.

Counties have access to license information using the online XCloud reports under the FCF directory or they can request access to FC01 **inquiry only** on the state system with their internal security officer.

For youth who have signed a Voluntary Placement Agreement for Extended Foster Care Services (FC to 21) and **are not living in an otherwise licensed placement** the following Facility ID codes shall be used.

Facility ID	Description
Z00001	Payment is made to the youth who has signed the Voluntary Placement Agreement for Extended Foster Care Services (FC 18 to 21).
Z00002	Payment is made to the landlord of the youth who has signed the Voluntary Placement Agreement for Extended Foster Care Services (FC 18 to 21).
Z00003	Payment is made to an unlicensed person that the youth who has signed the Voluntary Placement Agreement for Extended Foster Care Services (FC 18 to 21) is residing with.
Z00004	Payment is made to the school or university that the youth who has signed the Voluntary Placement Agreement for Extended Foster Care Services (FC 18 to 21) is attending.
Z00005	Payment is made to another living arrangement of the youth who has signed the Voluntary Placement Agreement for Extended Foster Care Services (FC 18 to 21).

Unlicensed Kinship Payments

Beginning November 2023, Legislative updates under [Senate Bill 20](#) have allowed for half of the standard board payment to unlicensed kinship providers. Current reimbursement is established as one half of the approved board rates for each age group. If the living arrangement identified in Field 45 is an unlicensed kinship provider who qualifies for standard half board payment in accordance with [Senate Bill 20](#), enter the Facility ID assigned to the kinship caregiver. Additional information about eligibility for these payments can be found in the [Permanency Planning Manual](#).

For eligible kinship placements and payments, the only valid living arrangement codes for Field 45 are below:

- 52 – Home of Unlicensed Relative
- 81 – Home of Relative Seeking Licensure
- 66 – Adoptive Home, Relative, Unlicensed
- 72 – Home of Unlicensed Nonrelative Kin*
- 88 – Adoptive Home, Nonrelative Kin, Unlicensed*

*These codes are only to be used effective 7/8/24 when a kinship care provider meets eligibility by providing care for half sibling(s) of child(ren) placed with the kinship care provider who is related by blood, marriage, or adoption. The half sibling(s) do not have to be related to the kinship care provider by blood, marriage, or adoption as long as one child is related by blood, marriage, or adoption to the kinship care provider.

Unlicensed kinship placements must have a valid ID assigned to them. These IDs begin with a “K.” In order for the county child welfare agency to receive the facility ID, the [DSS-5801 Unlicensed Kinship Form – Facility ID Request](#) form must be submitted to the state.

The [DSS-5801](#) is required for the following actions:

- Request the state to issue a *new facility ID*
- Provide *updates* for the home’s address, phone, capacity, sex of clients served, etc.
- *Renewal* of the Facility IDs for ongoing placements with the unlicensed kinship provider. Renewals will be required annually for active placements. Renewals can be submitted within 60 days of the current number/facility ID ending date. If there is a lapse, the renewal will be active the date the request is received.
- *Termination* to close the form when placement or custody status ends. A termination will also be required if the kinship provider becomes licensed as a foster parent.

Instructions for submitting initial and renewal [DSS-5801](#) and claim reimbursement for payments to kinship providers:

1. County child welfare agency completes section of form.
2. County child welfare agency submits completed form to UnlicensedKinshipForms@DHHS.NC.Gov within 3 days of a child being placed in a qualifying unlicensed kinship placement.

3. State reviews the form/request, issues a facility ID, and notifies county via email within 5 business days.
4. County utilizes facility ID in field #49 of the DSS-5094 form to request reimbursement.
5. County resubmits [DSS-5801](#) as needed to reflect changes, terminations, and/or renewals.

The DSS-5801 unlicensed kinship form, once keyed by the State, will generate a DSS-5015 turnaround for the county child's record to include the Facility ID and date of expiration of the ID.

For kinship placements during the service month, DSS-5801 forms should be completed and submitted before the 10th of the following month to ensure reimbursement. The effective date of Facility ID's will be the first of the service month.

For example, if the child was placed May 29th, the form is due by June 10th to allow for processing and the effective date will be May 1st.

J. PAYMENT INFORMATION (Fields 50 through 51)

Complete this section for children for whom payment will be claimed by the county child welfare agency. Complete only if requesting reimbursement and update as needed.

Multiple lines are provided which relate to the lines in Part VIII, Living Arrangement. The form displays three, but additional history is stored in the system. This means that each living arrangement for the child must be shown in Section VIII, and if any reimbursement is being claimed by the county child welfare agency for any of these arrangements, it must be shown in this Section on the same line that describes the type of living arrangement. Omissions in required fields of this section may affect reimbursement.

When a child moves from one facility to another within the same month, the standard ongoing rate can be entered in field 50 and field 51 can be used to represent partial month county payments for the living arrangement. If a county is utilizing field 51, an amount must be entered in field 50.

FIELD 50 - Monthly Rate (numeric, 6 digits, 0000.00 format)

- a. Enter the dollar and cents amount to show the amount of money the county child welfare agency pays to the facility for a standard ongoing payment. This is the cost of care **less any resources that are used** on an ongoing basis to pay for care. Although the amount entered should represent the actual county payment, it can be limited to the maximum rate eligible for Federal or State reimbursement.
- b. Each line must correspond with the line in Section VIII, which identifies the placement for which reimbursement is being requested.
- c. County agencies should review this information on the preliminary and final PQA020 reports to confirm correct entry of actual county funding paid to the placement provider.

FIELD 51 - Payment Amount (numeric, 6 digits, 0000.00 format)

- a. Enter the dollar and cents amount to show the actual payment to the facility when the amount that a county paid was different from the monthly rate. This could be when the county is paying for a partial month of care (child enters or leaves care during a month), the county uses the child's resources towards the cost of care, or the county adds a clothing allowance to the monthly rate.
- b. The amount entered in this field will be reimbursed only one time and will then be deleted from the form. On-going monthly reimbursements to the county will be made based on the amount, which is entered in the Monthly Rate field (Field 50) until an amount is entered in this field or until the placement is terminated.
- c. Counties are responsible for making payments directly to the provider after a service month finishes and recording these payments for reimbursement during the next month. The county payment amount must be entered by the foster care closing deadline to be reimbursed by the state.

Because the entries in field 50 and 51 represent the actual county payment to the provider, the system will not automatically increase foster care payments for children as they "age up" into a higher monthly payment category.

Field 50 and 51 should not reflect HIV supplemental payments. Requests for supplemental HIV payments should continue to be made manually using the DSS-5758

(<https://policies.ncdhhs.gov/divisional/social-services/forms>) form. This form should be mailed to the Division of Social Services at:

NC Division of Social Services
ATTN: HIV Supplemental
Child Welfare Services
Mail Service Center 2408
Raleigh, NC 27599-2408

K. ELIGIBILITY INFORMATION (fields 52 through 56)

Completion of this section is required for all children for whom foster care reimbursements are being requested.

This includes all children placed in foster care homes supervised by the county child welfare agency, as well as children in DSS Residential Care homes, facilities licensed under the standards of DMH/DD/SAS that have been assigned a county child welfare agency facility ID number and unlicensed kinship placements. This section includes information regarding the eligibility review period, funding source and child's resources for a case. This information must be updated immediately upon any change in eligibility. Failure to update fields or omissions in required fields will affect reimbursement.

For kinship placements, indicate the client's eligibility dates as determined by the DSS-5120 or DSS-5120a form. For kinship homes seeking to be licensed follow guidance for the IV-E Admin Eligibility Indicator below.

FIELD 52 - Eligibility Review Period from Date (numeric, 6 digits, MMDDYY format)

Enter the effective begin date of the child's current period of eligibility for foster care assistance.

An entry is required in this field, when an entry is made in Field 53.

FIELD 53 - Eligibility Review Period through Date (numeric, 6 digits, MMDDYY format)

Enter the last date upon which the child is eligible for foster care assistance for the current eligibility period.

An entry is required in this field when an entry is made in Field 52. The date entered in this field cannot be greater than 12 months from the date entered in Field 52.

FIELD 54 - TEA Eligibility (numeric, 6 digits, MMDDYY format)

Enter the effective date of TEA eligibility when it has been established.

If a date exists in this field and a new date is entered, it must be 365 days greater than what already exists.

FIELD 55 - Funding Source (alpha, 1 digit)

Field 55 is comprised of 4 boxes:

The three boxes arranged vertically underneath the heading "55. Funding Source" (IV-E, TEA and STATE) are to indicate the funding source for the foster care and extended foster care maintenance payments.

The IV-E Admin Eligible Indicator box to the right of the STATE box is used to identify children eligible for IV-E administrative payments during the month even when the IV-E box in field 55 does not indicate this funding and is left blank.

Funding Source for Maintenance Payment Boxes:

Enter a code in one box to indicate the funding source to be used to reimburse the county for foster care assistance (maintenance) payments in Field 50. Enter a code in only one box. Leave all three boxes empty when no county foster care assistance payments

are being claimed for reimbursement.

Here are the codes:

Code	Value
X	Used for children under 18 eligible for IV-E, TEA, or SFHF funding
E	Used for young adults in Extended Foster Care (FC 18 to 21) eligible for IV-E or SFHF funding

- **Instructions for Children Under 18 Eligible for IV-E, TEA or State Foster Home Funding:**

1. Enter X in the IV-E box if an assistance payment is being made for a IV-E eligible child in an approved placement with a license number issued by NC DSS **unless** a child’s SSI funds are being used for all or part of the maintenance payment, in which case the IV-E box should be left blank. (**Note**—Enter X in the IV-E box if an assistance payment is being made for a IV-E eligible child placed in a congregate care facility setting, irrespective of when the child was placed in the facility. For congregate care, under the Families First Prevention Services Act, the system will calculate the two-week limit on IV-E reimbursements of new placements and will make appropriate adjustments.
2. Enter X in the TEA box if an assistance payment is made for a TEA eligible child who is not eligible for IV-E and does not have SSI. If TEA is the funding source, a date must be entered in Field 54. If TEA is coded and the begin date is not the first day of the month, the system will reimburse from State (SFHF) only for that month and from TEA for subsequent months.
3. Enter X in the STATE box if an assistance payment is made for a child who is not eligible for IV-E or TEA. Also enter X in the State box for a IV-E eligible child whose SSI funds are being used and the balance of the foster care assistance payment is being claimed under SFHF.

- **Instructions for Young Adults in Extended Foster Care (FC 18 to 21)**

1. Enter E in the IV-E box if an assistance payment is being made for a young adult who is IV-E eligible even if the young adult is concurrently eligible for SSI.
2. Enter E in the STATE box if an assistance payment is being made for a young adult who is not IV-E eligible.

Note: TEA is not a valid funding source for Young Adults in the Extended Foster Care program.

IV-E Admin Eligible Indicator Box:

The IV-E Admin Eligible Indicator is the fourth box in field 55 and is located immediately to the right of the box labeled “State.” This box is used to identify otherwise IV-E eligible children or young adults who are eligible for administrative payments during the month even though IV-E was not used to reimburse the county for a maintenance payment (i.e., the IV-E box in field 55 is left

blank). The IV-E Admin Eligible Indicator box captures situations in which children should be included in the calculation of the IV-E penetration rate used to reimburse counties for administrative costs. Place a Y in the IV-E Admin Eligible Indicator if the IV-E eligibility box is blank **and** any of the following situations below are true. Otherwise, place an N in the IV-E Admin Eligible Indicator.

- A IV-E eligible child's SSI is being used for foster care assistance payments and any balance is being claimed as SFHF.
- A IV-E eligible child was on runaway status from a reimbursable placement at least one day in the month
- A IV-E eligible child was placed in an **unlicensed relative home** at least one day in the month for which an application for licensure or approval of the home as a family foster home is pending. Application or approval of licensure should be considered pending once the relative has requested to begin the licensure process or has signed up for foster care licensure classes. Eligibility for administrative payments under this exception can last no longer than 12 months or the average time it takes to license or approve a foster home.
 - If the client is IV-E eligible and the home is seeking to be licensed, both fields under should be marked as part of the eligibility determination (using an "X") AND the IV-E admin indicator (using a "Y").
 - If the client is IV-E eligible and the home is **NOT** seeking to be licensed, both fields under should be marked as part of the eligibility determination (using an "X") AND the IV-E admin indicator (using a "N").
- A IV-E eligible child was in a court-ordered trial home placement every day of a federal fiscal quarter. (January-March, April-June, July-September or October-December.) This box can only be checked on 5094s that are completed after the months of March, June, September, and December.)
- A IV-E eligible young adult in FC 18-21 is eligible for administrative payments even though the IV-E maintenance funding box is blank because the young adult was not in an approved placement that month.

FIELD 56 - Child's Resources (numeric, 6 digits, 0000.00 format)

Enter the actual dollars and cents amount of the child's income. For the current service month, enter the amount income from client resources that has been applied to the cost of care. The amount should represent funds from different sources and when added to the county payment should represent the full cost of care for the service month.

L. FINANCIAL ASSISTANCE INFORMATION (Fields 57 through 61)

Complete this section for all children who are in an out-of-home placement, including the home of relatives.

This section pertains to the type of other financial assistance a client is receiving, directly or indirectly, that is supporting the client's needs. Information in this section must be completed for all cases. Check all that apply. This information should be updated monthly or when there are any changes in federal assistance for the child.

FIELD 57 - County Funding Support

Check this item if the client costs are being supported by 100% county funding.

Complete Fields 7 through 13 for an adoption assistance child who is being assigned a new SIS ID number and a DSS-5027 form has not been submitted.

To save time, the new form DSS-5095 can be used to open both the service case in SIS and the Adoption Assistance case in CPPS.

- a) When this method is selected, Adoption Assistance Services for Children (service code 010) will automatically be opened in the Service Plan portion of the SIS. A begin date for this service must be entered by the data entry staff on the DSS-5027.
 - b) When this method is used, it is imperative that the correct SIS Client ID is used. A name search must be conducted to determine if the child has an existing Client ID or active record (DSS-5027) in the Services Information System (SIS) before assigning a Client ID. Only after a thorough search has been conducted, and all possible matches have been ruled out, should a new Client ID be assigned using this method. Failure to conduct a name search prior to assigning a Client ID can result in multiple IDs being created for a single client.
