Calculating the Penalty Period

Prior to calculation, determine

       Starting Point: _____

       Lookback Begin Date: _____

       Date Otherwise Eligible For Cost of Care/CAP: _____

1.   Total all uncompensated transfers   _____

2.   Divide by the private monthly NF rate   ÷

3.   Equals number of months (round to two decimals)   _____

4.   This is the number of whole-months of the sanction period.   _____ months

       For ongoing beneficiaries start the first day of the month following timely notice. _____

       For sanctions applied as of the date otherwise eligible, count whole months   through   _____

       starting

                                  Date otherwise eligible   _____

5.   Enter the fractional month (only two decimal places from 3 above)

       Multiply by 31   × 31

       Days added to sanction (drop partial day)   _____

6.   Add these days to the sanction period in 4 above. This is final sanction period for

       MAGI and CAP. Authorize the day after final through date.   _____ through   _____

                                Date otherwise eligible

7.   Does sanction end on the last day of a month? Yes   No

       If yes, sanction period is determined. A/B is ineligible for the entire period.

       If no, enter the number of days the A/B will be sanctioned in last month of the

       sanction period   _____

       Multiply by the average private daily NF rate   ×

       Monetary sanction amount to be added to first month's PML for LTC and PACE. _____
