<p><b><u>STATEMENT OF PHILOSOPHY</u></b></p> <p>"Adoption is the method provided by law to establish the legal relationship of parent and child between persons who are not so related by birth, with the same mutual rights and obligations that exist between children and their birth parent."<sup>1</sup> The primary purpose of adoption is to help children whose parents are incapable of assuming or continuing parental responsibilities to legally become part of a new permanent family.</p> <p>Adoption agencies are charged with establishing permanence for children, therefore, if adoption agencies in the state are to render the best possible services, each staff member must understand Systems Of Care (SOC) principles and have the conviction that an appropriate home can be found for any child who needs to be adopted and that the agency is responsible for enabling this. To accomplish this goal, agencies must provide for the diligent recruitment of potential adoptive families that reflect the ethnic and racial diversity of children in the state for whom adoptive homes are needed. The agencies must provide prospective adoptive parents equitable access to the preparation and assessment process.</p> <p>The selection of a family must focus on the needs of the child being placed, while recognizing that each child and family will have individual strengths. To be successful placement services must include assistance to the child and the adoptive family in the process of their integration as a new family.</p> <p><b><u>GOALS OF ADOPTION SERVICES</u></b></p> <p>Goals of Adoption Services are to:</p> <ul style="list-style-type: none"> <li>• Ensure timely permanence for children through legal adoption;</li> <li>• Ensure that each child, regardless of race, ethnicity, age or handicapping condition, has an opportunity for placement in a permanent family;</li> <li>• Prepare and assist children in their transition to an adoptive family.</li> <li>• Support and strengthen the adoptive family;</li> <li>• Provide services to all members of the adoption triad; and</li> <li>• Provide post adoption services to optimize family functioning and to prevent <u>dissolution of adoption</u>.</li> </ul>

## Introduction

**10A NCAC 70H Child-Placing Agencies: Adoption** Provides guidelines for the organization and operation of an adoption child-placing agency.

**10A NCAC 70M Adoption Standards**

Establishes adoption standards for county departments of social services in providing mandated adoption services.

**FEDERAL LAWS**

**PL. 96-272 -- Adoption Assistance and Child Welfare Act of 1980**

This federal law establishes the Title IV-E adoption assistance program which provides matching funds to States operating a program of adoption assistance benefits for parent(s) who adopt children with special needs who were either eligible for Aid to Families with Dependent Children (AFDC) or Supplemental Security Income (SSI).

**PL. 99-514 -- Non Recurring Adoption Act (Tax Reform Act of 1986)**

This federal law states that States are required to reimburse parents for "reasonable and necessary adoption fees, court costs, attorney fees, and other expenses" which are directly related to the legal adoption of a child with special needs.

**PL. 103-382 Part E -- Multiethnic Placement Act (MEPA) of 1994 and the Interethnic Provisions (IEP) of 1996**

This federal law, as amended by the Interethnic Adoption Provisions of the Small Business Job Protection Act of 1996, prohibits states or agencies that receive federal funds from delaying or denying the placement of any child for adoption or into foster care based on the race, color, or national origin of the individual, or the child involved. Therefore, failing to place a child with a prospective parent because the parent is a specific, or different race, color, or national origin from that of the child; or removing a child from a prospective parent because the parent or child is a specific race, color or national origin is a direct violation of MEPA. The Act also prohibits denying any individual the opportunity to become an adoptive or foster parent, based on the race, color, or national origin of the individual, or of the child involved. It also facilitates the identification and recruitment of foster/adoptive families that reflect the racial and ethnic diversity of waiting children. For additional information on MEPA/IEP please see the Special Legal Considerations section of the [Cross Function Manual](#).

**PL. 95-608 -- Indian Child Welfare Act**

This federal law sets requirements that apply to state child custody proceedings involving an Indian child who is a member of or eligible for membership in a federally recognized tribe.

## Introduction

PL. 104-188 Adoption Promotion and Stability Act This federal law provides a non-refundable tax credit for people who adopt children and a non-refundable credit to those who adopt children with special needs.

### **PL 106-395 Child Citizenship Act of 2000**

This federal law amends the Immigration and Nationality Act to permit foreign-born citizens (including adopted children) to acquire citizenship automatically if they meet certain requirements.

### **P.L. 105-89 Adoption and Safe Families Act**

This federal law provides that Title IV-E adoption assistance eligible children retain their eligibility for such assistance in a subsequent adoption if the adoptive parent(s) die or the adoption dissolves with a termination of parental rights and the child remains a child with special needs. It also requires the States to conduct a criminal record check on prospective adoptive parents(s) of children who would receive Title IV-E adoption assistance

### **P.L. 106-169 The Foster Care Independence Act of 1999**

This federal law increases the AFDC resource limit from \$1,000 to \$10,000 for Title IV-E foster care and Title IV-E adoption assistance eligibility purposes.

### **P.L. 109-171 The Deficit Reduction Act of 2005**

This federal law clarifies that for Title IV-E adoption assistance, a child must meet the July 16, 1996 State AFDC eligibility criteria in the specified relative's home from which s/he is removed. This legislation also eliminates the requirements that a child had to be AFDC eligible at the time of the initiation of the adoption proceedings.

### **P.L. 109-248 The Adam Walsh Child Protection and Safety Act of 2006**

This federal law requires fingerprint-based background checks for prospective adoptive parent(s) and, in all cases, prohibits the State from claiming Title IV-E adoption assistance if the prospective adoptive parent(s) have certain felony convictions.

This legislation further requires child abuse and neglect registry check in each State where each of the adults in the prospective adoptive home has lived in the past five years.

### **P.L. 104-193 The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA)**

This law limits Federal public benefits to qualified aliens. PRWORA requires a qualified alien entering the United States on or after the date of enactment of PRWORA (August 22, 1996), unless excepted, to live in the United States for five years before becoming eligible for certain Federal public benefits. In accordance with section 403(c)(2)(F) of PRWORA, however, Federal payments for adoption

Definition
The North Carolina Social Services Commission adopted the following rules and established standards for adoption. County departments of social services shall deliver adoption services in accordance with the following rules and SOC principles.

Protocol – What you must do	Guidance – How you should do it
<p><b><u>ORGANIZATION AND ADMINISTRATION</u></b></p> <p><b>PROGRAM MANAGEMENT</b></p> <ul style="list-style-type: none"> <li>• The agency shall have current information available for prospective adoptive families describing the strengths and needs of children needing placement and procedures for referring families they are unable to serve to other placement resources.</li> <li>• The agency will have a recruitment plan that reflects the ethnic and racial diversity of children in need of foster and adoptive homes. Minimally, the plan and its implementation shall reflect the requirements of the Multiethnic Placement Act of 1994, as amended by the Interethnic Adoption Provisions of the Small Business Job Protection Act of 1996.</li> <li>• The agency shall have a written protocol and procedure to respond to adoption placement disruption/dissolution. The agency shall track and record the number of, and reasons for, disruptions/dissolutions.</li> <li>• The agency shall provide or assist the adoptive family in accessing post adoption services to maintain placement and prevent dissolution of an adoption.</li> <li>• Adoption dissolutions shall be managed with emphasis placed on the child's needs, and relinquishments accepted only when there is a new plan of permanent placement for the child.</li> <li>• The agency shall keep current statistics that would reflect adoption outcomes. These statistics shall include numbers of children available for adoption, the length of time these children wait to be adopted, and the incidents of disruption and dissolution.</li> </ul>

### CASELOAD

A case may be defined as any one of the following:

- An expectant parent or parents receiving problem pregnancy services from the agency prior to the child's birth and release for adoption;
- Birth parents receiving services from the agency following release of the child for adoption;
- A child or sibling group to be placed together who have been referred to the agency for adoptive placement from another authorized child-placing agency and for whom an adoptive home is being sought or considered;
- A child or siblings, together with birth parents, for as long as the legal parent/child relationship exists;
- A child or siblings for whom the goals for adoption are the same, following release for adoption;
- A single person or married couple applying for or licensed to provide foster care for children relinquished for adoption to the agency;
- A single person or married couple in the process of or having completed an assessment for adoptive placement of a child or children;
- A child or sibling group and adoptive parents after placement occurs and during the period prior to entry of the Decree of Adoption; and
- Birth parents, or adoptive parents and adopted child, or adopted child, or adult adoptee following entry of the Decree of Adoption.
- The adoptive assessment of North Carolina residents with whom an out of state agency may want to place a child.
- Services provided to an adoptive family who has moved to North Carolina before completion of the legal process.
- The legal and social work services provided in relative and independent adoptions.

### SERVICES TO PERSONS INVOLVED WITH ADOPTIONS

#### SERVICES TO BIRTH PARENTS OR LEGAL GUARDIANS

## Social Work Standards

Protocol – What you must do	Guidance – How you should do it
<p>SOC and MRS principles emphasize that every individual has strengths and has the right to be heard without judgments being made. Therefore, the agency shall help those parents reaching the decision to relinquish their child to the agency for adoptive placement have a thorough understanding of the meaning of adoption and its impact on the child's and their lives. The following requirements are those set forth in the N.C. Administrative Rules in 10A NCAC 70H .0403.</p> <p>A parent or guardian may relinquish all parental rights or guardianship powers, including the right to consent for adoption, to an agency (refer to N.C.G.S. § 48-3701-706). The agency shall ascertain that the parent has a thorough understanding of the effects of this action and of the time period allowed for revocation of the Relinquishment. When the agency has received the parent's or guardian's relinquishments, the agency must indicate acceptance of the relinquishment by signing a statement of willingness to accept.</p> <p>The individual executing the relinquishment must be offered an unsigned copy of the relinquishment; be advised that counseling services are available through the agency to which the relinquishment is given; and be advised of the right to employ independent legal counsel.</p> <p><b>SERVICES TO THE CHILD</b></p> <p>SOC and MRS principles encourage the involvement of children in decision making, when appropriate. Children should have the opportunity to have a permanent home through adoption if they cannot return home, regardless of age, religion, racial or ethnic group identification, nationality, residence or handicap. The child's statement should not be the sole determinant of the decision to plan for adoption. It is important to address issues the child may have concerning adoption.</p> <p>Services to the child shall be documented on the Adoption Services to the Child Checklist See <a href="#">Attachment B</a> (agency may elect to utilize this tool or create a tool that covers the recommended content).</p> <ul style="list-style-type: none"> <li>• When adoption is the plan for the child, the agency must develop a child's specific written strategy for recruitment of an adoptive home, unless a family has clearly been identified. The written strategy shall</li> </ul>

<p>be developed within 30 days of adoption becoming the permanent plan This should be documented on Out of Home Family Services Agreement (DSS-5240) or may be a separate document.</p> <ul style="list-style-type: none"> <li>• The child's worker shall prepare a written Child Pre Adoptive Summary of the child which will form the basis of the child's record. See <a href="#">Attachment D</a> (agency may elect to utilize this tool or create a tool that covers the recommended content).</li> <li>• Within 30 days from the time a child has been cleared for adoption, the agency shall assess the child's eligibility for Adoption Assistance. This may occur before an adoptive family has been identified and shall not be based on the income of the prospective adoptive parent. The eligibility must be reflected on the (Adoption Assistance Eligibility Checklist) DSS Form 5012.</li> <li>• Services related to the placement of the child are of paramount importance. Placement for the child will be based on the needs and attachments of each child and on the strengths and needs of the prospective family. The child's worker shall prepare the child for the adoptive placement considering the child's language and developmental level. The preparation of the life book with the child is a critical tool for helping a child with the adoption process. The child shall be helped to understand the reason that adoption is the plan as well as to understand the adoption process.</li> <li>• Other issues related to placement which are important to consider are:  When a child becomes legally free for adoption, the agency shall give priority to the child's placement provider (relative, court approved non-relative, foster family) who is willing and able to adopt the child unless there is documentation that it is not in the child's best interest. If such a plan is not implemented, the agency shall give priority to other relatives/kin who have been assessed and are determined to be an appropriate resource for the child</li> </ul> <p><b>Placement with Foster Parents</b> Prior to initiation of a general or specific adoptive home recruitment for a child, the agency should determine if there are placement options that would enable the child to remain in a familiar environment. If interested in adopting the child, foster parents and relatives should be assessed as adoptive resources for the child. All such assessments must focus on the child's needs and on the applicants' capacities to meet the</p>

<p>child's needs. If the child is already living in the home of the applicants, strong consideration should be given to placement with these persons, taking into account the length of time the child has been in the home, the depth and degree of bonding that has occurred, and the child's ability to move from the home and form satisfactory attachments in another home and with another family. <b>Unless it can be clearly documented that placement with the current caretakers is contrary to the child's welfare and best interests, this should be the first consideration for adoption.</b></p> <p><b>Legal Risk Placements</b></p> <p>A legal risk placement is a placement that occurs when the agency believes that adoption is in the best interest of the child; that the child is placed in an approved adoptive home; and the agency intends to approve this placement for adoption if the child becomes legally free for adoption.</p> <p>The agency shall have a written policy stating that pre-adoptive legal risk placements may be considered when in the child's best interests. Barriers and legal constraints must be discussed with the potential adoptive parents. Until the child is legally free for adoption, all requirements of foster care, including licensure, shall be followed unless a court order sanctions the placement.</p> <p>A child in the legal custody of a county department of social services for whom it has been determined that adoption is the most suitable permanency plan and who is in the process of being freed for adoption may be placed in an approved adoptive home with the understanding that if the child becomes legally free for adoption, the child will be adopted by this family.</p> <p><b>Legal Risk Placement Guidelines</b></p> <p>A child may be placed in a legal risk placement when:</p> <ul style="list-style-type: none"> <li>• the child is the subject of a Termination of Parental Rights</li> <li>• Order that is under appeal; or</li> <li>• there is an approval of legal risk placement by the Adoption Committee; or</li> <li>• one parent has consented to adoption and the other parent's identity and/or whereabouts is not known; or</li> </ul>	<p>In cases when adoption is the plan, the agency should seek relinquishments from the birth parents or legal guardian or a petition for termination of parental rights shall be filed within 60 days of the agency's decision that the goal is adoption.</p>

<ul style="list-style-type: none"> <li>• the birth family abandoned the child.</li> </ul> <p>The prospective adoptive parent:</p> <ul style="list-style-type: none"> <li>• has an approved preplacement assessment;</li> <li>• meets foster care licensure standards or has court approval for placement with legal risk parents;</li> <li>• has been informed of the legal status of the child and understands that the child is currently not free for adoption and there is a risk that the child may not become free for adoption;</li> <li>• has signed the Information Sharing Acknowledgement (DSS-5246) ; and agrees to sign and abide by the conditions of the Legal Risk Placement Agreement. (DSS5304)</li> </ul> <p>The purpose of legal risk placement is to move the child into a permanent home as soon as possible without jeopardizing the legal or social well-being of the child. Since, in making a legal risk placement, the agency does not yet have authority to consent to the child's adoption, the home in which the child is to be placed must be licensed as a foster home or approved by a court order.</p> <p><b>Placement of Siblings</b> Please see Siblings in <a href="#">Cross Function Topics</a>.</p> <p><b>Placement for Children with Special Needs</b> Please see Placement Decision Making in <a href="#">Permanency Planning</a>.</p> <p><b>SERVICES TO ADOPTIVE RESOURCE PERSONS</b></p> <p>The agency shall have a written policy that the agency discusses with and provides to prospective adoptive and foster parents in reference to rights, responsibilities and procedures, including licensure and Adoption Assistance. At a minimum, the information shall outline descriptions of the children needing placement, the availability of Adoption Assistance, the compensation package for children needing placement, the procedure for requesting and receiving post-adoptive services, and referral procedures to other child-placing agencies for families they are unable to serve.</p>

Protocol – What you must do	Guidance – How you should do it
<p>Services to adoptive resources starts with an appropriate recruitment plan and continues on with an Adoption Services Application. See <a href="#">Attachment A</a> (agency may elect to utilize this tool or create a tool that covers the recommended content).</p> <p><b>Diligent Recruitment and Retention of Foster and Adoptive Parents</b></p> <p>Every agency must have a diligent recruitment and retention plan to comply with MEPA-IEP. The major thrust of MEPA’s recruitment requirements is that agencies provide for the diligent recruitment of potential foster and adoptive families that reflect the ethnic and racial diversity of children in the state or county for whom foster and adoptive homes are needed. Federal guidelines specifically call for a thorough diligent recruitment and retention plan that includes both general and targeted campaigns and encompasses the following features:</p> <ul style="list-style-type: none"> <li>• A description of the characteristics of waiting children (i.e., age, race, ethnicity, time in care, special needs, etc.);</li> <li>• Specific strategies to reach all community members through a general media campaign such as radio, television, and print;</li> <li>• Diverse methods of disseminating both general and child-specific information to targeted communities through community organizations such as churches and other religious institutions.</li> <li>• Strategies for assuring that all prospective foster and adoptive families throughout the community have equitable access to the home study process, including location and hours of services that facilitate access by all members of the community.</li> <li>• Strategies for training foster and adoptive staff in cultural, racial and economic diversity.</li> <li>• Strategies for dealing with linguistic barriers.</li> <li>• Assurance of non-discriminatory fee structures.</li> <li>• Procedures ensuring a timely search for prospective parents awaiting a child, including the use of exchanges and other inter-agency efforts, provided that such procedures ensure that the placement of a child in an appropriate household is not delayed by the search for a same race or ethnic placement.</li> </ul> <p>To comply with MEPA requirements, each county’s diligent recruitment and retention plan must include the above-listed features. In addition, each plan must also include the following information:</p>	

## Social Work Standards

Protocol – What you must do	Guidance – How you should do it
<ul style="list-style-type: none"> <li>• Partnerships with agencies and individuals from the communities in which foster children come from to help identify and support potential foster and adoptive families, to enhance the agency’s ability to reach various populations, and to conduct activities which make waiting children more visible.</li> <li>• Strategies to ensure community members have access to information about waiting children and supports that are available to foster and adoptive families.</li> </ul> <p><b>Adoptive Home Preparation and Selection</b></p> <p>The preferred method for developing an adoptive resource is Group Preparation and Selection of adoptive families (MAPP/GPS).</p> <ul style="list-style-type: none"> <li>• Group preparation and selection provides the structure for prospective adoptive families to make decisions about their ability, willingness and readiness to participate in the adoption program.</li> <li>• Group preparation and selection provides an opportunity for families to identify both their strengths and needs for adopting. Once needs are identified, agency staff and the families work together to develop strategies to meet those needs.</li> <li>• This model provides tools for social workers and prospective adoptive parents to mutually assess the parents' abilities and readiness for adoption. These tools include the family profile (summary and assessment), family consultations, strengths/needs assessment, criteria for mutual selection, partnership and professional development plans.</li> </ul> <p>The pre-placement assessment is the total collection of information designed to document and consolidate the entire preparation and selection process for each adoptive family. Through the implementation of SOC Principles, the information in the preplacement assessment shall be developed mutually with the prospective adoptive family.</p> <p>As part of an assessment and mutual selection process, the agency is required by law to include in the pre-placement assessment the information outlined in: (N.C.G.S. § 48-3-303; 10A NCAC 70H .0405 See <a href="#">Attachment C</a> (agency may elect to utilize this tool or create a tool that covers the recommended content).</p>

Protocol – What you must do	Guidance – How you should do it
<p>When an adoptive Preplacement Assessment, adoptive Preplacement Assessment Update, and a Report on Proposed Adoption are conducted, the following must be addressed and documented.</p> <ul style="list-style-type: none"> <li>• Interviews with biological and/or adoptive children in the home. Interviews should assess the relationship of these biological/adoptive children to the parents. Assessment should gather information that allows the assessor to determine the support and integration these children have received in the home. (i.e. are medical, therapeutic, educational and socialization needs met.)</li> <li>• Interviews with biological children/adoptive children should also address their relationship, acceptance and integration with prospective adoptee.</li> <li>• Any parenting issues that were noted in initial preplacement assessment and any others that may have surfaced during placement of child in the home and efforts parents and/or agency have made to resolve concerns.</li> <li>• Discipline techniques employed to address any behavior issues and why appropriate for particular child.</li> <li>• Have the prospective adoptive parents state in writing that they are not the subjects of any CPS Assessment and that they will notify the agency if that occurs prior to the entry of the final decree.</li> </ul> <p>Whenever a family that has adopted previously is being considered for additional adoptive placements, the Preplacement Assessment Update must be thorough and must address all of the changes that have occurred since the earlier adoption was completed. Changes in family dynamics, family inter-relationships, and family responsibilities must be addressed.</p> <p>The agency preparing the preplacement assessment may redact from the preplacement assessment provided to a placing parent or a guardian detailed information reflecting the prospective adoptive parent’s financial account balances and detailed information about the prospective adoptive parent’s extended family members, including surnames, names of employers, names of schools attended, social security</p>

If, for any reason, the applicant is not accepted by the agency as a potential adoptive parent, the agency shall share with them in writing the reason a child cannot be placed with them and they shall have the right to have their summary reviewed by the agency. During the preparatory phase of approval, each prospective adoptive parent will be provided a handbook that outlines relevant agency policies and procedures.</p> <p>The agency is required to provide the family with a copy of the preplacement assessment. Each agency shall have a procedure for allowing an individual who has received an unfavorable preplacement assessment to have the assessment reviewed by the agency. (N.C.G.S. § 48-3-305)</p> <p><b>The applicants must be provided in writing with notice of the agency's decision regarding approval or denial of approval for adoption within thirty days after the study is completed. <p>If the adoptive family moves to another county, state, or country before the Decree of Adoption is entered, the agency having placement authority for the child is responsible for requesting continuing casework services and supervision from a social agency serving the adoptive family's new place of residence, using appropriate interstate procedures. In such cases, it is essential that the Petition for Adoption be filed prior to the family's move. Otherwise, there may be a considerable delay in their being able to file an adoption petition in their new state of residence, and they may be questioned as to their rights to obtain school admission, medical services, etc., on behalf of the child.</p> <p>If the move occurs within North Carolina, the supervising agency should correspond directly with the adoptive family's new county department of social services to request the needed services. Along with a cover letter to explain the basis for the request, the adoptive home assessment, the child's pre-adoptive summary, and other pertinent information should be sent.</p> <p><b>Adoption Disruption and Dissolution</b></p> <p>The decision to remove a child from an adoptive placement prior to finalization should be made with the same seriousness and forethought that was given to removing a child from his birth family. <b>The agency shall have a written protocol and procedure to respond to adoption placement disruption/dissolution. Adoption dissolution occurs after the Decree of Adoption has been entered. Obviously, dissolution has more serious implications since not only is a placement ending, but the legal rights of the child and responsibilities of the adoptive parents must be addressed.</p> <p>A disruption or dissolution decision must be made with the focus on the best interest of the child. Services provided to the child should include counseling to help the child understand the reason the adoption ended and express feelings about the disruption/dissolution and assess the child's readiness for another placement. ### Adoption Disruption

Adoption disruption is a term used to describe the interruption of an adoptive placement after actual placement of a child with the adoptive family but before finalization of the legal adoption process. Recognizing that disruptions are a possible occurrence in any adoption, families should be made aware that this could happen. A positive communication process between the family and the agency will facilitate any discussion of a pending disruption and aid in mutual planning if this should occur. The social worker should immediately begin to assess the type of placement that will be necessary for the child should the disruption occur and prepare to provide assistance to both the family and the child in dealing with the possibilities around disruption.

The decision to stop the adoption process should be mutual, that is, arrived at between the parents and worker and, when feasible, the child. The decision must be made slowly and carefully, only after all alternatives and resources have been tried. Families considering disruption are distressed and in crisis and are likely to have difficulty in evaluating the situation objectively and in sorting out issues. The worker can offer assistance with both.

Families need support during and after disruption, including help in processing their feelings. They are faced with how and when to inform the adoptive child, other children in the home, extended families and friends about the pending disruption. Support should be given by the worker to alleviate feelings of guilt, anger, depression, and rejection. Families should not necessarily be excluded from future consideration as adoptive parents because of a disrupted placement.

Specific steps workers can take to help the family through disruption include:

- Respond to the family's request for assistance;
- Maintain open communication with the family;
- Help parents discuss disruption openly with the child;
- Negotiate an agreeable plan of action with the family and the child;

The child needs to be assured that the agency will continue to plan for him and to assure him that he will be taken care of.</p> <p>Specific steps workers can take to help the child through disruption are as follows:</p> <ul style="list-style-type: none"> <li>• Discuss with the child in words that he can understand that this placement is not working;</li> <li>• Help the parents and the child discuss disruption together;</li> <li>• Help the child recognize and cope with his reactions and feelings and to express them appropriately;</li> <li>• Help the child with the loss of his family;</li> </ul>

In many cases the adoptive parents will voluntarily dismiss their petition without the need for agency action. That agency is then responsible for the child's future placements.</p> <p>In the event an adoption disrupts, the placing agency shall notify the clerk within 30 days of the child's return to foster care to calendar the case for a review of the agency's plan for the child under N.C.G.S. §7B-909(b). Immediate planning for another permanent placement for the child should begin when the child returns to the agency's custody.</p> <p>If the agency's right to place the child was based on a designated relinquishment, rather than a general relinquishment, AND the parents chose the option on the DSS-1804 form to be given notice if the adoption cannot be completed, then the parents must be notified that the adoption will not be completed and they have an additional ten days in which to revoke. If the parents cannot be located after the disruption, but they requested notice if the adoption could not be completed, the agency must notify them by registered mail to the address given in the relinquishment. Their ten day revocation period begins to run after the notice has been delivered or the date of last attempted delivery (N.C.G.S. §48-3-704). If the parents do not revoke a designated relinquishment within the ten days, the relinquishment becomes a general one, and the agency can make an adoptive placement of its choice.</p>

### Adoption Dissolution

Adoption dissolution is a term used to describe the interruption of an adoptive placement after the legal process has been completed and the adoption is finalized. Obviously, this is a much more serious occurrence than a disruption since not only is a placement ending, but the legal rights of the child and responsibilities of the adoptive parents must be addressed.

The department of social services in the county where the family resides is the agency responsible for assisting the family when dissolution becomes a possibility. This is true even if this was not the agency that placed the child nor the agency that supervised the placement.

A dissolution decision must be made with the focus on the best interest of the child. The agency that originally placed the child should be contacted as quickly as possible as a resource for information about the child's background needs, family of origin, including the current status. They may also be a possible placement resource if return to the original county would meet the child's needs for reconnecting to the family of origin, siblings or past foster parents.

A relinquishment should be considered only when it has been determined that it is in the child's best interest. At no time should a relinquishment be accepted from adoptive parents simply because this is the plan, they make to remove their legal responsibilities. If the family requests to relinquish, this should be considered only when the child could be placed with another adoptive family or appropriately returned to a family with whom the child has past attachments. Problems in the adoptive home should be evaluated considering the family's issues as well as the needs and behaviors of the child. Consideration should be given to the possibility that the child may live elsewhere--perhaps, in a therapeutic environment-- and remain a member of the adoptive family.

The adoptive family should be encouraged, supported and assessed in getting services that will enable them to continue to parent their child. While recognizing that the family is often not the "cause" of the child's problems or behaviors, the agency must view the family as the best resource for this child unless there exists a child protective services related risk.

## Social Work Standards

Protocol – What you must do	Guidance – How you should do it
<p>When a child continues as a family member but does not reside in the family home, adoption assistance benefits can continue if the adoptive parents retain legal or financial responsibility.</p> <p>In an adoption dissolution, the agency that originally placed the child should be contacted for assistance with the gathering of information, plans for the best possible placement for the child, and plans regarding adoption assistance benefits. While the previous agency is not responsible for the placement of the child in an adoption dissolution if the child no longer lives in that county, it is important for each agency to work together to assure that the child's needs are being met. SOC tells us that the best way to serve the needs of children and families is for all involved agencies to work cooperatively.</p> <p>If an adoption dissolution appears imminent, the agency involved should consider several options. One option is a Voluntary Placement Agreement (VPA) DSS-1789 (DSS-1789sp) to provide some respite, help the family gain some perspective on the problems, access resources, etc. The filing of a juvenile petition is the next option if the child is being abused, neglected or is dependent.</p> <p>A relinquishment should be considered only when it has been determined that it is in the child's best interest. At no time should a relinquishment be accepted from adoptive parents simply because this is the plan to remove their legal responsibilities. Problems in the adoptive home should be evaluated considering the family's issues as well as the needs and behaviors of the child. Consideration should be given to the possibility that the child may live elsewhere--perhaps, in a therapeutic environment--and remain a member of the adoptive family. The adoptive family should be encouraged, supported and assessed in getting services that will enable them to continue to parent their child. While recognizing that the family is often not the cause of the child's problems or behaviors, the agency must view the family as the best resource for this child unless there are child protective services related risks. In such cases, decisions must be based on the findings of the CPS assessment, which includes the safety assessment, risk assessment, and strengths and needs assessment.</p> <p>A relinquishment does not relieve the adoptive parents of the obligation to provide support. The relinquishment, which may be revoked within seven days, places legal and physical custody of the child with the agency but does not terminate the adoptive parents' rights or their duty to support the child. If child support is ordered, the adoptive parents may use the adoption assistance to pay child support. <b>(The agency cannot be the payee; therefore, the adoptive parents would cash the check and make payments to the</b></p>

<p><b>agencies).</b> If the agency decides not to pursue child support, and the agency determines that the adoptive parents are no longer providing any support to the child, adoption assistance can be terminated. However, before this is done, the adoptive parents must be informed of the appeals process (See Adoption Assistance Appeal in (Appendix 3.6:– Adoption Assistance Funding).</p> <p>See <a href="#">Cross Function Topics: TPR, juvenile court</a></p> <p>In the event of an adoption dissolution, the Department of Social Services may need to pursue termination of parental rights if only one adoptive parent has relinquished the child or if the child has returned to care because of abuse, neglect or dependency. In the former, the Department of Social Services should file a TPR petition, not a TPR motion in the cause, because there is no underlying juvenile action that has been personally served. The relinquishment gives DSS standing to file a TPR petition under N.C.G.S. § 7B-1103(a)(4). If an adoptive child comes back into care because of abuse, neglect or dependency, the procedure to terminate the adoptive parents’ rights is the same as for any other parents. The TPR order terminates all rights and obligations of the former adoptive parents with respect to the child, except the child’s right to inherit from them continues until an adoption decree is entered.</p> <p>If the child has not been placed for adoption AND an adoption petition has not been filed within six months from the date of the relinquishment or TPR order, the agency should schedule a post-relinquishment/TPR hearing under N.C.G.S. § 7B-908 and N.C.G.S. § 7B-909 to show the court the efforts that are being made toward re-adoption. The Motion for Review form, AOC-J-140, has a block to check for these types of reviews.</p> <p>If the child is adopted by other adoptive parents following a relinquishment, the Decree of Adoption severs the relationship of parent and child between the individual adopted and that individual's previous adoptive parents. After the entry of the Decree of Adoption, the former parents are relieved of all legal duties and obligations due from them to the adoptee, except that a former parent's duty to make past-due payments for child support is not terminated, and the former parents are divested of all rights with respect to the adoptee.</p> <p>The Adoption and Safe Families Act of 1997 includes a provision for adoption assistance when re-adoption occurs.</p>

<p><b>COMPLETION OF LEGAL RESPONSIBILITIES</b></p> <p>During the adoption process the agency will be cooperating with the adoptive parents in the legal adoption procedure. In accordance with provisions of <a href="#">Chapter 48</a> of the General Statutes, the supervising agency has responsibility for preparing and filing necessary information and confidential reports with the Court of Adoptions. (Refer to the “Legal Guides” section above.)</p> <p>Since adoption is in part a legal procedure, the family should be advised to secure the services of an attorney; however, legal representation is not required by statute, and the adopting parents may file their adoption petition without counsel, if desired. It is the responsibility of the agency to help complete the legal requirements of adoption in response to the Order for a Report to the Court, and when requested by the Court or the attorney, to advise about proper procedures as outlined in this Chapter.</p> <p><b>POST-ADOPTION SERVICES</b></p> <p>Post adoption services should be made available to every adoptive family, as appropriate, after the Decree of Adoption has been entered.</p> <p>Post-adoption services involve interviewing, counseling, and providing clinical and consultative services for the purpose of ensuring permanence of the placement.</p> <p>Such services may be designed to treat problems that developed before or after the date of the Decree of Adoption. After completion of the adoption, agencies continue to have a moral obligation and a social responsibility for the welfare of the children for whom it originally planned. Post-adoption consultation is not a continuation of supervision. It is an agency service given as needed and requested by any of the parties involved in an adoption.</p>

<p><b>Consents</b></p> <p>The term "consent to adoption" is used primarily in two instances. A consent means a voluntary surrender of a child for adoption by the parent or guardian in a direct or independent placement. The term "consent" is also used when an agency, which has received a relinquishment from a parent or guardian, consents to the placement of a child in an adoptive home. Further, a child 12 or more years of age must execute a consent for adoption, except that such consent may be waived by the court upon finding that it is not in the child's best interest to require consent (N.C.G.S. §48-3-601 and 48-3-603 [b]).</p> <p><b>Persons Whose Consent to Adoption is Required (N.C.G.S. §48-3-601)</b></p> <ol style="list-style-type: none"> <li>1. For example, if the mother's name is Mary Jane Doe and she marries a Smith, her signature would be Mary Jane Doe Smith.</p> <p><b>Mother is Married and Legal Father is Not Biological Father</b> It is necessary that the legal father as well as the birth father and mother consent to the adoption of a child born in wedlock although the legal father (mother's husband) is not the birth father. North Carolina common law presumes that the birth mother's husband is the father of the child regardless of the circumstances around the child's conception and birth. Notice must be provided to the birth father and legal father, except as provided in (c) below and/or their consents or relinquishments must be obtained.</p> <p><b>Consent of Legal Father is Not Necessary in Certain Instances</b> The consent of the husband of a birth mother of a child to be adopted is not required if the child was born more than 280 days after the marriage was terminated or the parties have separated pursuant to a written separation agreement or an order of separation entered under Chapter 50 or 50B of the General Statutes or a similar order of separation entered by the court in another jurisdiction.</p> <p>The consent of the legal father is also not required if there has been a judicial determination that he is not the father of the child or a judicial determination that another man is the father of the child to be adopted. N.C.G.S.§48-3-603(a)(2).</p> <p><b>Denial of Paternity</b></p> <p>Occasionally the person named by the mother as the birth father of the child may deny paternity. In such a case, the person named as the father should execute his denial and waive any rights, including right to notice of the adoption, on the Denial of Paternity, Form DSS5118. Only an original of this form is needed, and it should be filed with the Petition for Adoption and any other legal documents. The Denial of Paternity is enough to allow the clerk to enter an order with findings of fact that his consent is not required. A denial of paternity may be executed at any time <b>after conception</b> of the child <b>by a man who was not married to the mother (N.C.G.S.§48-3603).</b></p>

<p>However, to be certain that no adoptive placements can be successfully challenged in such cases, it is recommended that the agency having placement authority for the child petition for termination of parental rights against an unknown father, since the denial of paternity by one man leaves open the question of paternity.</p> <p><b>Voidable or Bigamous Marriage</b>            If a child is born of a voidable or a bigamous marriage, the child is considered legitimate notwithstanding the annulment of the marriage (N.C.G.S.§50-11.1). Therefore, it is necessary that the birth father, as well as the mother, give consent to the adoption of the child. <b>If a child is born of a bigamous marriage</b>, consents to the child's adoption should be secured from the birth mother, the mother's legal husband (legal father of child), and the husband of the bigamous marriage (birth father of child).</p> <p>If the consents to the child's adoption cannot be secured from the legal father (mother's legal husband) as well as from the birth father (husband of bigamous marriage) because the whereabouts of one or both are unknown, then necessary action should be taken to rule out one or both, as the case may be, through a termination of parental rights action.</p> <p><b>Divorced Parents</b></p> <p>Consent of both parents in cases of divorce is necessary to adoption of their child unless one or both parents have been eliminated through termination of parental rights or unless the legal father's consent is not required as discussed in (c) above.</p> <p>The awarding of custody of a child to one parent in a divorce decree does not terminate the parental rights of the other parent for purposes of adoption and does not therefore eliminate the other parent as a necessary party to a subsequent adoption proceeding.</p> <p><b><u>PETITIONS TO ADOPT</u></b></p> <p>The Petition is a formal request to the <b>Clerk of Superior Court</b> for approval of an adoption and is presented to the Court for the purpose of legally establishing the parent-child relationship. Protocol – What you must do	Guidance
<p>When possible, staff should seek the assistance of the birth parents in completing the Non-Identifying Background Information and the Adoption Health History Forms. In cases in which the agency is working with the parents prior to their releasing their child for adoption, this will pose little or no problem. In an effort to obtain as much accurate information as possible about the child's birth family, the forms should be given to the parents for completion, with the instructions that they should feel free to seek the help of their parents and/or other relatives in obtaining information to be included on the Adoption Health History Forms. Family centered practice tells us that it may be beneficial to assist the birth family in completing the form.</p> <p>Non-Agency Adoptions</p> <p>A separate Adoption Health History Form, Part II, is to be completed for each birth parent. In cases in which the child has been placed directly by the birth parents with the adoptive parents, these forms should have been completed by the birth parents at the time of the agency's assessment. In other cases, such as relative adoptions, the agency will become aware of and involved in the case only after receipt of the Order for a Report on Proposed Adoption (DSS-1807), after the Petition for Adoption of a Minor Child (DSS-1800) has been filed. In such cases, family centered practice tells us that the agency should make every effort to assist petitioner(s) to obtain the information needed for the Non-Identifying Background Information (DSS-5102) and the Adoption Health History (DSS-5103). Often, this will mean that the agency receiving the Order for a Report on Proposed Adoption (DSS-1807) from the Court will need to contact an agency or agencies in another county or state for assistance in this matter.</p> <p><b>GENERAL INFORMATION</b></p> <p>There should be no attempt to contact the birth parents after an adoption has been completed through the Decree of Adoption to obtain information for the Non-Identifying Background and Adoption Health History Forms. However, when working with the birth parents at the time of release to the agency or, in independent placements, following receipt of the Order for a Report to the Court, the adoption worker should encourage them to feel comfortable about providing the agency with relevant and current medical information on a continuing basis. <b>Contact must then be made with the adoptive parents to share any such information that may affect the health of the adoptee (N.C.G.S. §48-9-103(e)).</b></p> <p>In all contacts with birth parents around obtaining the information for these two forms, the parents should be helped to understand the value that this information will have for the adoptive parents and for the child they are releasing or have released for adoption.</p>

<p>Medical facilities are increasingly seeking detailed medical background information as they evaluate and develop treatment plans for patients, and this information can be of critical importance.</p> <p>In motions by adult adoptees under N.C.G.S.§48-9-105, the Clerk must consider the appointment of an intermediary to obtain information from the birth parents in a non-identifying manner, and many clerks will ask the placing agency to serve as an intermediary, locate the birth parents, obtain updated background and medical information for the adoptee and ascertain their desire to be identified to the adult adoptee.</p>

Definition	
<p>When the adoptive home deemed most suitable to meet the child's needs is located in another county or state; or when, after placement has occurred, the adoptive parents are transferred to another county or state prior to the issuance of the Decree for Adoption, supervisory services need to be requested to assure satisfactory adjustment of the family and protection of the child. When the move is to another state, the requirements and procedures of the Interstate Compact on the Placement of Children must be followed. <p>These items must be sent to the ICPC Section of the North Carolina Division of Social Services <b>in triplicate</b> for appropriate transmittal to the other state. Frequently, it will be desirable or essential that the home to which the child is going be licensed (or "approved," the term used in some states) as a foster home. For North Carolina's children going to other states, the home must be licensed or approved if foster care payments are to be continued until finalization of the adoption; and/or the child is being placed on a "legal risk" bases.</p> <p>When another state's child is placed with a North Carolina family, the requirements of the Interstate Compact outlined above must be followed by the placing agency. The receiving agency, which may be a private agency or county of residence of the adoptive family, shall be responsible for complying with requests for reports.</p> <p><b>Independent Placements</b></p> <p>An independent placement is one in which the child is placed for adoption by the parent or legal guardian directly with the adopting family when the child is not in the custody of a county DSS or private child placing agency.</p> <p>The provisions of <u>N.C.G.S. §7B-3800</u>, the Interstate Compact on the Placement of Children (ICPC), apply to independent adoptive placement situations. <u>Departments of social services</u> may provide the needed services in obtaining enough information on the prospective adoptive parents, birth parents, and child to serve as a basis for approval of the placement and prepare the preplacement assessment as required by law.</p> <p>A placement can be approved if the assessment and background information indicate that the adoption plan is a voluntary one on the part of the birth parents and that they understand their rights and are satisfied with the plan, that the child appears to be a suitable subject for adoption, that the proposed adoptive family appears to be a suitable one for the child, and that so far as can be determined, proper consents necessary for a valid adoption have been, or can be, obtained.</p> <p><b>When Adoptive Families Move After Placement, Prior to Decree of Adoption</b></p> <p>When adoptive families move from North Carolina or to North Carolina before entry of the Decree of Adoption, requests for assistance of agencies in the new residence must be directed through the Interstate Services Section of the Division of Social Services, for transmittal to the counterpart agency in the other state. It is expected that the new state of residence will provide the family with appropriate adoption services and will submit timely reports to the sending state.</p> <p>All changes in status for interstate adoptive placements require notification to the Interstate <a href="#">ICPC</a> Section of the Division of Social Services. The changes are submitted on the Interstate Compact Report on Child's Placement Status (ICPC-100B–<a href="#">DSS-1838</a>).</p> <p><b><u>PROCEDURES FOR INTERNATIONAL ADOPTION</u></b></p> <p><b>FOREIGN BORN CHILDREN PLACED WITH NORTH CAROLINA FAMILIES</b></p> <p><b>When a Child is Adopted in the Country of Birth</b></p> <p>All responsibilities for giving approval for these placements rest with the private or public agency that prepares the home assessment. The placements must be in conformity with the pre-adoptive requirements of North Carolina and the US Citizenship and Immigration Services regulations. Contacts are made directly to the US Citizenship and Immigration Services Office by the agency working with the adoptive applicants. Unless a child has been identified by the adoptive applicants, county departments of social services are not required to provide services to persons seeking to adopt internationally (N.C.G.S. §48-3-302(e)). Private agencies specialize in international placements and are oftentimes the best resources for these placements.</p> <p>North Carolina residents often apply to United States based international adoption agencies located in other states across the country. These placements must adhere to the Interstate-Compact for the Placement of Children guidelines.</p> <p><b>Legal Process</b></p> <p>When the legal adoption process is completed in the foreign court before the child enters the United States, the adopting parents appear in person before the foreign court and become the child's legal parents at that point. Approval for the child to enter North Carolina is not needed. In other cases, the adoption proceeding, even though it may be filed in the foreign court, will not have been completed. Guardianship may have been granted or the adoption may have been completed by "proxy" when the time comes for the child to join his adoptive parents in North Carolina. In such instances, or when no adoption proceeding has been filed in the foreign country, approval must be obtained prior to the child's coming to North Carolina. Approval, just as in interstate approvals, is based on</p>

ICPC supervision continues until the adoption is finalized.</p> <p>The international process is complex, time-consuming and expensive. It is often stressful and difficult to complete. Therefore, it is important that adoptive applicants become well-informed, maintain a strong commitment to the process and have the support and expertise of the agency to assure a successful foreign adoptive placement.</p> <p><b>PROCEDURES FOR RE-ADOPTION OF CHILDREN ADOPTED IN A FOREIGN COUNTRY</b></p> <p>North Carolina residents are encouraged to also adopt through a North Carolina court upon return to this state. The law does not distinguish between a domestic adoption and an inter-country adoption, so the basic procedure for legalizing an adoption must be followed. A certified copy or the original document of the foreign adoption decree will serve in lieu of the otherwise required consents to the adoption. Once a Decree of Adoption is issued, the adoptive parents will receive a Certificate of Identification from the North Carolina Vital Records Office. The child's birth record will be recorded in North Carolina, though indicating the country of birth as it was. This will eliminate the necessity for the parents to attempt to obtain a new birth record for the child from the country of origin - often an impossible task. (See Adoption Checklists for Clerk, <a href="#">Attachment F</a>)</p> <p><b>NATURALIZATION OF A FOREIGN-BORN CHILD ADOPTED BY NORTH CAROLINA RESIDENTS</b></p> <p>Adoption does not confer citizenship on the child being adopted. Therefore, it is important to file an application for naturalization of a foreign-born child adopted by North Carolina residents as soon as feasible with the US Citizenship and Immigration Services authorities. The process for naturalization may take up to two years from the time the application is made.</p> <p><b>PROCEDURES FOR THE ADOPTION OF ADULTS</b></p> <p>Any person who is eighteen or more years of age may be adopted in accordance with the provisions of N.C.G.S.§48, Article 5. This Article shall apply to the adoption of adults, including married and emancipated minors. In such an adoption, the rights, duties, and obligations of the adoptive parents and the person being adopted are the same as if the adoption had taken place before the adopted person's eighteenth birthday. There is no requirement for any social agency to make investigations and reports to the Court in these proceedings, as is required in the adoption of minors. (See Adoption Checklists for Clerk, <a href="#">Attachment F</a>)</p> <p><b><u>MAINTENANCE OF ADOPTION RECORDS</u></b></p> <p>The child's agency and the adoptive parent's agency, whether the same or different, must maintain cross-reference controls on all adoption cases in a manner to allow for retrieval of a specific case, should need arise. These controls should be maintained with the same level of confidentiality as is observed in maintaining adoption records. An adoptive home record is set up according to agency policy governing all other case records and is retained permanently in a separate folder in a locked file under the name and case number of the adoptive parents. 10A NCAC 70H.0409. All adoption records are kept completely confidential.</p> <p>A child's adoption record should be constructed from the information contained in the family record and separated when adoption becomes the plan for the child as recognized by the court. An adoptive home case record is established for adoptive applicants at the time of their initial request for service. The record should include a summary of the services provided and a compilation of pertinent facts, with the necessary documentation from the time of the application for service through the completed legal process and termination of agency services. <p><b>RELATIONSHIP WITH PRIVATE CHILD PLACING AGENCIES</b></p> <p>To assure that all waiting children have every opportunity for placement, social workers should be familiar with and be able to access all available resources which include, in addition to public agencies, all private child-placing agencies, both in and out of state.</p> <p><b>NORTH CAROLINA LICENSED PRIVATE CHILD-PLACING AGENCIES</b></p> <p>All private child-placing agencies in North Carolina that are licensed by the Division of Social Services are available to provide adoptive placement for waiting children. The fees, costs and contracts associated with and required by these agencies vary. Due to these variations, social workers should contact the agency directly to discuss the referral process and purchase of service fee, if applicable. It should be noted that the Division has entered into a contract with some of the North Carolina private agencies and/or provides a grant or funds other services provided and available after placement. Services provided and available after placement also vary depending upon the agency and social workers must discuss and negotiate follow-up service responsibilities.</p> <p><b>OUT OF STATE LICENSED PRIVATE CHILD PLACING AGENCIES</b></p> <p>Several specialized adoption agencies exists throughout the country which have become valuable resources in providing adoptive families for special needs children. Often these agencies do not charge fees to their adoptive applicants but rather charge the child's agency a fee for services. Workers should contact each agency directly to discuss the referral process and the fee for service. If a child is placed with an out of state family through one of these agencies, provisions of the ICPC apply.</p> <p><b>PURCHASE OF <u>OUT OF STATE</u> ADOPTION SERVICES WHEN A FEE IS REQUIRED</b></p> <p>With the objective of expanding adoption opportunities for some of North Carolina's children, State funds have been made available to assist county departments of social services with placement fees charged by specialized out of state agencies. (<a href="#">10A NCAC 70M.0501</a>)</p> <p><b>Fees</b></p> <p>The maximum amount available from the Division is \$1,800 per child. Since the fees charged by many of the specialized agencies may be more than \$1,800, the child's agency will need to have funds budgeted for this purpose or have access to funds locally to complete the total amount of the purchase fees.</p> <p>The agencies base their fees on the actual average cost of the total services, which may include recruitment, preparation and assessment, training, post placement services and post finalization services. Many agencies can negotiate with the child's agency toward a fee somewhat lower than the actual average cost.</p> <p><b>Procedures to Obtain Prior Approval and Reimbursement of Service Fees</b></p> <p>Requests for assistance with payment of service fees should be submitted in writing to the Special Needs Adoption Coordinator of the Division of Social Services. The request should be sent at the point a decision has been reached to place the child with a specific family who has been studied and approved by the specialized adoption agency and when the two agencies have completed negotiations regarding the total amount of the fee. Documentation of the total fee and of the following must be included in the letter of request:</p> <ul style="list-style-type: none"> <li>• that the county department making the request has legal placement and</li> <li>• consenting authority;</li> <li>• that the child is legally cleared for adoption;</li> <li>• that the child is considered hard to place due to such factors as age, physical, mental or emotional handicaps, and/or due to being a member of a sibling group to be placed together; and</li> <li>• that the child is registered, with NC Kids Adoption and Foster Care Network, if a family has not been identified for the child.</li> </ul> <p>The Division of Social Services will notify the county department promptly of the action taken on its request for assistance with the adoption fee. If approval for payment is given, a copy of the signed Purchase of Adoption Services Agreement (DSS 5305) between the out-of-state adoption agency and the county department of social services must be sent to the Division of Social Services to document both the terms of the financial agreement and the approximate payment schedule.</p>

Following payment to the out-of-state agency, a copy of the receipt must be sent by the child's agency to the Division of Social Services for its files.</p>	

## Adoption Exchange

Definition	
<p>The Adoption Exchange is a program provided by the Division of Social Services to assist local agencies, both public and private, in finding suitable adoptive families for special needs children in foster care awaiting adoption. An adoption exchange is a system of exchanging information with agencies about children available for adoption and about prospective adoptive parents. This is done through recruitment, the sharing of adoption referrals and information, photo listing, match/referral, and public education.</p> <p>These functions are carried out with NC Kids Adoption and Foster Care Network. The activities of NC Kids are intended to supplement, not replace the traditional methods of exchange of summaries among agencies or to replace referral or registration with child placing agencies. The use of NC Kids does not relieve the agency of responsibility of continuing efforts to find placement resources.</p> <p><b>PURPOSE</b></p> <p>The purpose of NC Kids is to help local agencies find permanent families for children with special needs who need adoptive placement, and to assist approved adoptive applicants in their search for waiting children. <b>NC Kids does not make the decisions regarding placement; rather they identify potential matches between a child and prospective family and notify the agencies involved of placement possibilities.</b></p> <p>NC Kids is organized to facilitate adoption placements through adoption and foster care information and referral, match referrals, recruitment, public education and increased awareness of specific children and families through the photo listing service and other local and national public recruitment efforts.</p>

To ensure that NC Kids will provide an effective program in the goal toward permanency planning, all waiting children must be registered within 30 days of becoming legally free for adoption. If an adoptive family has been identified, the adoption agency shall submit a written request for exemption in lieu of registration forms.</p> <p>Children may be registered with NC Kids and, at the same time, placed on referral to other appropriate resources, depending on the anticipated difficulty in effecting a placement. It is essential that NC Kids be promptly notified of any change in information on the children. For NC Kids to make referrals that are appropriate, current information on each child’s registration is necessary. The pre-adoptive summaries of the children should always be accurate and up to date.</p> <p>All approved adoption applicants who are requesting adoption information on special needs children are to be registered with NC Kids upon approval of their pre-placement assessment, unless they are under consideration at that point for a specific child. <b>NC Kids will accept registrations only of those adoptive applicants who are requesting special needs children.</b> Adoption applicants should be informed by their social worker about the use of NC Kids in bringing parents and children with special needs together, just as they are informed about other procedures the agency may follow in the study and placement process. It is essential that NC Kids be notified of any change in information on the adoptive applicants. For example, many adoptive applicants will become more flexible regarding the type and number of children acceptable to them as they wait for a placement. Updating of this kind of information in the family’s pre-placement assessment can be critical to the consideration of appropriate child matches.</p> <p>The local agency, having legal custody of the child, registers the child by submitting the appropriate registration forms: the NC Kids Child Registration Form (DSS-1820) or the Request for NC Kids Legal Risk Search (DSS-5225) to NC Kids. Either the agency that approved the adoption applicant or the adoption applicant can submit the NC Kids Family Registration Form (DSS-1821) to NC Kids for family registration. Once a signed copy of the pre-placement assessment and the DSS-1821 are received, families will be considered “active” for matching. By submitting these forms, local agencies authorize the inclusion of their client in the database, authorize public recruitment efforts unless legal-risk, and provide the information necessary for a meaningful referral.</p> <p>All NC Kids forms (DSS-1820, DSS-1821, DSS-5225 and the DSS-5303) may be obtained downloading the necessary forms from the NCDSS website at: <a href="https://policies.ncdhhs.gov/divisional/social-services/forms">https://policies.ncdhhs.gov/divisional/social-services/forms</a>.</p>

<p><b>LEGALLY-FREE CHILD</b></p> <p>All children for whom adoption is the plan shall be registered with NC Kids within 30 days of becoming legally free by the agency having placement authority unless an exemption is granted by the North Carolina Division of Social Services.</p> <p>Requests for exemption of registering a child legally free for adoption should be forwarded to NC Kids for approval via the Request for Child Registration Exemption (DSS-5303). Agencies are required to submit updates on exemptions within the frames indicated. Reasons for registration exemptions include:</p> <ul style="list-style-type: none"> <li>• identification of an adoptive family for the child (approved for a period not to exceed six (6) months);</li> <li>• a child that needs diagnostic evaluation (approval for a period not to exceed six (6) months);</li> <li>• a child that is receiving mental health, medical treatment and has been determined by a qualified professional that it is not in the child’s best interest to pursue adoption at this time (approval for a period not to exceed six (6) months and documentation by the child’s provider must accompany the exemption request).</li> </ul> <p>When submitting the Request for Child Registration Exemption (DSS-5303) the agency is not required to submit either an adoption summary or a photograph of the child being considered for exemption. Once an exemption is received, NC Kids will respond to the submitting agency informing the agency of the child’s exemption status.</p> <p>NC Kids will refer all registered children to regional and national exchanges, media outlets, websites and other publicity campaigns, as appropriate.</p> <p>Agencies will submit a completed Child Registration form, a pre-adoptive summary and one current quality photograph of the child. Due to the sensitive nature of the information obtained on the Child Registration Form (DSS-1820) and the child’s pre-adoptive summary these documents, if submitted electronically, must be submitted in a secure (password protected) manner. Digital photos and the child’s pre-adoptive summary that identify the child by name may be submitted electronically to NC Kids provided they are submitted in a secure (password protected) manner. A copy of the registration materials should be retained in the agency’s file. Registration forms that do not contain current information and/or a recent quality photograph for public recruitment efforts will not be processed and the sending agency will be notified.</p>

Protocol- What you must do	Guidance
<p>The Child Registration Form (DSS-1820) is valid for one year. Agencies are required to submit an updated Child Registration Form, an updated pre-adoptive summary and a current photograph each year for as long as adoption is the plan and no home has been identified for the child.</p> <p><b><u>LEGAL RISK CHILD</u></b></p> <p>Children for whom adoption is the plan that are not yet legally cleared for adoption and for whom no permanent home has yet been identified may be submitted to NC Kids for a preliminary internal search for a legal risk adoptive home. These children will not receive public recruitment efforts and will not be listed on the Adoption Exchange website (<a href="https://www.adoptuskids.org/states/nc/index.aspx">https://www.adoptuskids.org/states/nc/index.aspx</a>). These situations apply when the termination process has not been completed and the child is not yet legally free for adoption, or the termination of parental rights is on appeal. When children are not legally free for adoption, the agency's Director or designee must sign the registration form.</p> <p>The Request for Legal Risk Search form (DSS-5225) is completed for the legal risk children for whom the agency wishes NC Kids to do a preliminary search.</p> <p>To request a Legal Risk Search, the child's agency will submit the Legal Risk Search form (DSS-5225) and a pre-adoptive summary for the legal risk child to NC Kids. Once the Legal Risk Search form and summary are received, NC Kids will conduct a search of the database for families that match the child's criteria and have an approved pre-placement assessment. NC Kids will forward the child's profile to potential adoptive families and/or their agencies for review. If a family expresses an interest in a child, NC Kids will forward the family's information to that child's social worker for consideration.</p> <p>Digital photos that identify the child by first name may be submitted electronically to NC Kids provided they are submitted in a secure (password protected) manner. A copy of the registration materials should be retained in the agency's file. Incomplete registration packets will not be processed, and the agency will be notified.</p>

<p><b>ADOPTION APPLICANTS</b></p> <p>Agencies should register adoptive applicants with NC Kids after they have conducted an adoptive study, have assessed the applicants as being potentially suitable adoptive parents for children with special needs, and where no child is readily available to be placed with the family. Registrations should be limited to those applicants who have requested special needs children.</p> <p>In registering approved adoptive families, agencies should submit a current, certified copy of the family’s pre-placement assessment to NC Kids. The Family Registration Form (DSS-1821) is also completed for the adoption applicants the agency wishes to register. The Family Registration Form (DSS-1821) and the family’s pre-placement assessment will assist NC Kids in identifying any potential child matches for the family. Approved adoptive applicants registered with NC Kids will be able to make child-specific inquiries, receive referrals and be included in the NC Kids matching program. NC Kids will notify the family’s agency of any potential matches and completed family referrals.</p> <p>The completed Family Registration Form (DSS-1821), and the family’s current pre-placement assessment should be mailed to NC Kids.</p> <p><b>NC KIDS INFORMATION AND REFERRAL SERVICE</b></p> <p>NC Kids Information and Referral provides callers without pre-placement assessments detailed information on the adoption and foster care process and refers them to their local county department of social services or licensed private agencies for services. Counties are encouraged to keep NC Kids informed of the specific county representative they wish families to contact. NC Kids is able to provide support for agencies during recruitment campaigns or help publicize local foster care/adoption events on the website:  <a href="https://www.adoptuskids.org/states/nc/index.aspx">https://www.adoptuskids.org/states/nc/index.aspx</a>.</p> <p>NC Kids provides callers who have approved pre-placement assessments on file with NC Kids specific information on the waiting children. If families meet the preferences and the family would like to be considered as a potential placement resource, a referral is made to the child’s social worker. NC Kids also assists social workers by identifying appropriate prospective adoptive families based on the information provided on the pre-placement assessment and the Family Registration form.</p> <p>NC Kids can provide services to the Hearing-Impaired and non-English speaking individuals.</p>

<p><b>WEBSITES</b></p> <p>Legally free children registered with NC Kids will be submitted to North Carolina’s section of the AdoptUSKids website (<a href="https://adoptuskids.org/adoption-and-foster-care/how-to-adopt-and-foster/state-information/north-carolina">https://adoptuskids.org/adoption-and-foster-care/how-to-adopt-and-foster/state-information/north-carolina</a>). Inquiries from AdoptUSKids are directed to NC Kids. The NC Kids Program Consultants provide general information to prospective families or a family’s social worker. Families with pre-placement assessments on file with NC Kids will be given more specific information and may be referred to the child’s social worker for consideration.</p> <p>Because legally free registered children will be featured on the National Adoption Exchange, AdoptUsKids, and receive national exposure, the child will receive interest from families across the nation. All families, regardless of location, should be considered as a potential placement for the child unless an exception has been approved by the local county department of social services.</p> <p><b>MEDIA CAMPAIGN</b></p> <p>The media is another recruitment tool for children who are currently waiting for permanent homes. NC Kids partners with television stations, newspapers, associations and organizations to feature specific children and/or run public service announcements.</p> <p>The purpose of featuring the waiting North Carolina children in print and broadcast media is to increase their chance of finding a permanent home. Each child has the opportunity to be seen by potential families watching television, reading the newspaper or viewing media websites.</p> <p>NC Kids coordinates child specific media features and is responsible for working with the media outlet and the child’s worker to schedule the media event. Counties can request additional media exposure at any time.</p> <p>Families interested in children featured in the media can call the toll-free NC Kids Hotline. The NC Kids Program Consultants provide general information to callers and sends the referral to the child’s social worker for consideration.</p> <p><b>MATCH REFERRAL</b></p> <p>Match Referral is a staff-assisted program that links waiting children for whom adoption is the plan with families seeking to adopt them. A match is identified by comparing the characteristics of a child or sibling group with the characteristics requested by families. Matching</p>

<p>services are designed to bring together waiting children and prospective adoptive parents. This match criterion is based on the information contained on each registration form and <u>for</u> families with a current certified pre-placement assessment on file with NC Kids.</p> <p>Upon receipt of the Child Registration Form (<a href="#">DSS-1820</a>), NC Kids will search the database for potential family matches for the child. The potential matched family and their social worker(s) will be notified. The child’s social worker will receive a list of these possible matches. Upon confirmation of the family’s interest, the family’s preplacement assessment will be submitted to the child’s social worker.</p> <p>Upon receipt of the Family Registration Form (<a href="#">DSS-1821</a>) <u>and</u> a family’s pre-placement assessment, NC Kids will search the database for potential matches of children for adoptive families when requested. The family’s social worker and family will be notified of the potential matched children. Upon confirmation of the family’s interest, the family’s pre-placement assessment will be submitted to the child’s social worker.</p> <p><b><u>PUBLIC EDUCATION AND OUTREACH</u></b></p> <p>NC Kids provides education and outreach efforts statewide to the general public and community agencies and partners on foster care and adoption. Outreach efforts increase awareness and assist with the recruitment of prospective families to serve waiting children.</p> <p><b>HEART GALLERY</b></p> <p>The Heart Gallery is a collaborative effort between NC Kids, local departments of social services, businesses and photographers from across North Carolina that volunteer their time and talent in capturing children’s personalities in portraits to raise awareness and support for adoption. Heart Gallery photos are displayed statewide in a variety of venues. All legally freed children registered with NC Kids are eligible to participate within this recruitment event. Consent to participate within the Heart Gallery must be secured from the local agency who has legal custody of the child. If your agency would like additional information on businesses or photographers participating in the Heart Gallery or to find out more about the venues in which these photos are displayed, please contact the NC Kids staff.</p>

<p><b>PROCEDURE AFTER REFERRAL IS RECEIVED FROM NC KIDS</b></p> <p><b>PROMPT EVALUATION OF REFERRAL AND EXCHANGE OF SUMMARIES</b></p> <p>When NC Kids receives an inquiry regarding a child appearing in a public recruitment effort or confirms interest from their internal match service, a notification will be sent to the child’s agency and to the agency representing the inquiring party. It is the responsibility of those agencies identified through the match process to explore any placement possibilities.</p> <p>After receiving the referral from NC Kids, the social worker should contact the family immediately to acknowledge their interest and obtain additional information. The social worker should determine if an approved family with a current pre-placement assessment could be selected. If an approved family cannot be selected and there are families without pre-placement assessments who are interested in the child, it is suggested that the child’s social worker contact these families to assess their appropriateness as a placement resource. If a family without a pre-placement assessment is identified, the child’s social worker should negotiate with the family’s county department of social services or a private adoption agency to complete the preplacement assessment.</p> <p>Regarding cases referred from NC Kids, the respective local agencies must notify NC Kids of any placement that results from or of any decision regarding the referral. This may be done verbally or in writing. Remember, if identifying information is submitted electronically, it must be submitted in a secure (password protected) manner.</p> <p>In every case where placement seems a possibility, each agency should submit a Child Pre-Adoptive summary and the family’s pre-placement assessments to the other agency without delay. It is strongly recommended that the summaries be exchanged within two weeks after the referral is received. A decision to proceed with placement planning will ultimately be made from information contained in the summaries.</p> <p><b>WITHDRAWAL OF REGISTRATION</b></p> <p>When waiting children or adoptive applicants who have been registered with NC Kids are no longer available for placement, this should be reported promptly to NC Kids by the responsible agency or family. This can be done by written or verbal communication to the hotline. Remember, if identifying information is submitted electronically, it must be submitted in a secure (password protected) manner.</p>	

## Confidential Intermediary

Definition	
<p>For many members of the adoption triad - adoptee, adoptive family, and biological family the process of adoption has severed ties and formed bridges to new connections. While there is a celebration of new family beginnings and relationships there are often losses associated with the disconnection from biological family and relationships. Adoption is a lifelong process that doesn't end with the finalization of the adoption. Members of the adoption triad continue to process the adoption and often have many unanswered questions that permeate their lives. Many desire to know the identity, current life circumstance and/or updated medical information of the individual lost through adoption.</p> <p>Historically, individuals seeking the release of identifying information could do so only by filing a written motion before the clerk of court of original jurisdiction, pursuant to <a href="#">G.S. § 48-9-105</a>. This statute remains unaffected by the amendments made to <a href="#">G.S. § 48-9-104 (b)</a> and can still be used, in lieu of Confidential Intermediary (CI) services, for the purposes of obtaining identifying information or for appointment of a confidential intermediary for those not entitled to contractual CI services.</p> <p>The North Carolina General Assembly in Session Law 2007-262; House Bill 445 initially amended <a href="#">G.S. § 48-9-104</a>, Release of Identifying Information, to add subsection (b), in 2008. Further amendments to this statute broaden the eligibility of those who may request CI services, effective October 1, 2010. This legislation provides that a child-placing agency licensed by the North Carolina Division of Social Services (Division) or a North Carolina county department of social services may agree to be a Confidential Intermediary (CI) without the need for an appointment order from the court for the following:</p> <p><b>Biological Parent:</b> by facilitating contact or the sharing of non-identifying and/or identifying information with adult adoptees with the written consent of the parties to the contact and/or the sharing of information.</p> <p><b>Adult Adoptee:</b> by facilitating contact or the sharing of non-identifying and/or identifying information with biological parents with the written consent of the parties to the contact and/or the sharing of information.</p> <p><b>Adult Biological Sibling of an Adult Adoptee:</b> by facilitating contact or the sharing of non-identifying and/or identifying information with biological siblings of an adult adoptee with the written consent of the parties, <b>including that of any living biological parent(s)</b>, to the contact and/or the sharing of information.</p>

The agency for which the individual works should refer him to another DSS or licensed adoption agency. The agency may also determine what other relationships may be a conflict, such as members of the local DSS Board, Board of Directors for the licensed adoption agency, etc.</p> <p><b>VERIFICATIONS OF IDENTITY AND RELATIONSHIP</b></p> <p>Before a CI agency enters into a CI agreement with an individual, the CI agency must verify the identity of the individual. To establish identity, the document must provide information related to the person named on the document. A government-issued picture identification card is the most reliable method of verifying identity. Examples of such cards are United States passports, driver’s licenses, military ID’s, school ID’s, etc. If the individual does not have a government-issued picture identification card, it is permissible to accept three or more documents that reasonably corroborate the identity of the individual. These documents must contain the individual’s name, plus any additional information establishing the individual’s identity. Acceptable documents include high school and college diplomas from accredited institutions, marriage certificates, divorce decrees, property deeds/titles and employee identification cards. All documents used must contain consistent identifying information.</p> <p>In order to permit release of any identifying information to an adult adoptee, a biological parent, an adult sibling or half sibling of an adult adoptee, an adult family member of a deceased adoptee or an adult family member of a deceased biological parent, the relationship of the lineal descendent to the adoptee or biological parent must also be verified in addition to identity verification of the applicant. Relationship verification should be verified through certified birth, death and/or marriage certificates. Flexibility is possible in</p>

It is entirely voluntary on the part of the individual county department of social services or licensed adoption agency as to whether they will act as a CI agency and provide these services. It is also the decision of the individual county department of social services or licensed adoption agency as to what services they will provide and for whom. Some agencies may decide to provide services only to those individuals whose adoption case was handled by their agency. Others may choose to provide CI services to anyone. Some agencies may decide to provide CI services to adult adoptees only and others may decide to serve all the eligible categories of individuals.</p> <p><b>FEEES FOR CONFIDENTIAL INTERMEDIARY SERVICES</b></p> <p>Agencies acting as a Confidential Intermediary may set their own fee for this service. CI agencies will need to develop a fee structure that can be supported by reasonable and customary cost methodology. The actual fees charged will need to take into consideration the specific task being performed, and the role of the staff person performing the task.</p> <p>Some of the activities to be considered in developing a fee structure include:</p> <ul style="list-style-type: none"> <li>• Providing initial consultation regarding the agency’s policy in addressing the changes to the laws.</li> <li>• Conducting an in-house record review and a search for the person listed above, including, but not limited to, an Internet based search;</li> </ul>

It is recommended that agencies use a similar process to other fees set by the agency and consult with other agencies serving as Confidential Intermediaries as needed.</p> <p>Agencies should consider all potential services to ensure the fee developed encompasses all relevant costs. Consideration should be made regarding circumstances where the individual being sought is deceased as an additional fee for acquiring a death certificate may be necessary. County departments of social services should specifically reference G.S. §108A10 for statutory requirements regarding fees.</p> <p>At the CI agency’s discretion, the fee structure may include circumstances for which fees may be waived or reduced, for example, for indigent individuals. Written information regarding the CI agency fee structure must be available to anyone inquiring about CI services. (G.S. § 48-9-103(a)) The agency may provide non-identifying information about the adoptee’s present circumstances, if known, to a birth parent, adult birth sibling or guardian of a minor birth sibling. (G.S. § 48-9-103(f)). In both these instances, the agency may only charge a reasonable fee for locating and making copies of this non-identifying information.</p> <p>(G.S. § 48-9-103(g)) Additionally, if an agency receives information from the adoptee’s birth parent or family about a health or genetic condition that may affect the health of the adoptee or the adoptee’s child, the agency must make a reasonable effort to contact and forward this information to an adult adoptee or the adoptive parent of a minor adoptee. G.S. § 48-9103(e). This service must be provided without charge.</p>

<p><b>REPORTING COUNTY SOCIAL WORK TIME</b></p> <p>Effective January 1, 2008, two new Service Codes for Day Sheet reporting have been established. These codes are 017 – Adoption Access (CI) and 018 – Adoption Access (CI) Case Management. (Refer to SIS Change Notice 03-07 for full instructions.) These codes are to be used by county staff to document activities and services to clients when acting as Confidential Intermediary in response to requests for access to Adoption records on behalf of an adult adoptee or their adult lineal descendant (if the adoptee is deceased).</p> <p>017 – Adoption Access (CI): This code should be used to report activities such as responding to inquiries, Intake, providing general services, program management and other non-client-specific activities related to acting as Confidential Intermediary. Also, this is the code that should be used if one county DSS is responding to a request for searching agency records for a CI agency (no Client ID required). It is valid with Program Code N.</p> <p>018 – Adoption Access (CI) Case Management: This code should be used, upon opening a case, to document client-specific activities such as records research and review, travel, case management, providing information and support, and other activities associated with serving as Confidential Intermediary. Use on the DSS-5027 (Client ID required) and the DSS-1571 Part IV (Client ID required) when reporting purchased services. It is valid with Program Code N.</p> <p>Note: These Service Codes, when reported on Day Sheets, must be changed to Program Code N – Non-DSS Reimbursable. Instructions for the DSS-1571 Part I and IV will be provided by the Controller’s Office.</p> <p>Other Changes: DSS-5027 Field 18: “State Use” code “1” - “Indigent Recipient” has been added to. Protocol- What you must do	Guidance
<p>It is suggested that any search pursuant to this agreement will be conducted for a period of 90 days, after which a written report will be sent to the individual with the results of the search thus far. At that point the CI agency and the individual will need to determine whether they each wish to continue or amend the search process and renegotiate fees or terminate the search services.</p> <p>In the event the individual sought has been located and agrees to contact with the applicant, county departments of social services and licensed adoption agencies should respond within 30 days to any request to facilitate that contact.</p> <p><b>RESOURCES FOR SEARCHES</b></p> <p>Systems restricted by federal or state confidentiality laws and guidelines cannot be used for these searches. Any public record can be used, such as DMV or tax records. Internet search engines and public or private sites can be used at the agency’s discretion. There is, however, a cost for the use of some of these sites. Clarification has been obtained that CI agencies may not access Child Support Enforcement for access to their information in conducting searches, as this access is not legally permissible.</p> <p><b>SUPPORTIVE SERVICES</b></p> <p>County departments of social services and licensed child-placing agencies that choose to act as CI agencies should designate an individual or a unit to handle the CI requests and services. This process could be emotionally difficult for some people, and the staff designated to provide the CI services need to be adequately trained to manage these cases with sensitivity and social work skill. When an agency agrees to provide CI services, time should be spent with the person seeking those services discussing possible outcomes and helping them manage their expectations. The agency should also continue to assess the person’s needs as the process continues.</p> <p>There are several possible outcomes in the provision of CI services to the individual requesting the services:</p> <ul style="list-style-type: none"> <li>• Updated non-identifying information</li> <li>• Unsuccessful attempts to locate or contact anyone</li> <li>• Persons are located but may be unwilling to consent to releasing information or to contact with the person seeking the CI services</li> <li>• Persons are located and agree to meet with the person seeking the CI services</li> <li>• Information indicates that the person being located is deceased</li> </ul>	

## Confidential Intermediary

Protocol- What you must do	Guidance
<p>Regardless of the outcome, the agency should continue to be supportive of the person and assess their needs throughout the process. If services needed to support the individual are not available within the CI agency, appropriate referrals to community services should be offered.</p> <p>Also, the CI staff who contacts the individual being sought should be prepared to address a variety of potential circumstances, such as:</p> <ul style="list-style-type: none"> <li>• The individual being sought for identifying information may welcome the contact and be open to the request for information or to a potential meeting.</li> <li>• A birth parent being sought may now have a family with whom they have never disclosed the fact that they had a previous child that was adopted. Some of the birth parents may have released their child for adoption voluntarily, or they may have had their rights terminated. In either case, the CI staff making the contact should be prepared for potential reactions.</li> <li>• An adult adoptee being sought may not know that they were adopted. This disclosure may be traumatic for many reasons. Care should be taken in approaching any adult adoptee for the first time. CI agencies are encouraged to develop a method for initial contact with adult adoptees. For example, it may be advisable to begin with a request for the person to contact the CI staff in person regarding a family matter.</li> <li>• A birth parent being contacted by a lineal descendent of a deceased adoptee may face issues of grief and loss in learning that their child is deceased.</li> <li>• A person contacted may, in fact, not be the actual person being sought.</li> </ul> <p>Regardless of the circumstance, the agency should be supportive of these persons being contacted also and assess their needs throughout the process. If services needed to support the individual are not available within the CI agency, appropriate referrals to community services should be offered.</p> <p>Throughout the process of a CI search the agency is responsible for ensuring that confidential information remains protected and agencies must contact individuals in a manner reasonably calculated to prevent incidental disclosure of confidential information.</p> <p><b>FACILITATING A MEETING</b></p> <p>The CI agency may act in the role of facilitator when a meeting between parties is requested. The agency representative should prepare all parties involved carefully before the meeting. In addition to arranging the meeting, the agency representative should provide introductions and help guide the discussion during the visit.</p>	

## Confidential Intermediary

Protocol- What you must do	Guidance
<p>The agency should provide good social work practice that includes assessment and support long enough to determine if there is a need for additional services. It may be necessary to spend additional time after the meeting helping individuals process the results the meeting and what it may have meant for them. If at any time a more significant need is identified, the agency representative should discuss available services through referral and help facilitate contact with the appropriate referral agency.</p> <p>When acting as the confidential intermediary for an individual, CI agencies must be sensitive to the sharing of identities and the impact of those revelations to the individual. To that end, agencies should thoroughly process the information and discuss the intended and unintended consequences with the individual. CI agencies may offer limited social work counseling to the individual but should also refer the individual to professional counseling services if needed.</p> <p><b>INDIVIDUALS SEEKING THE SERVICES OF A CONFIDENTIAL INTERMEDIARY</b></p> <p><b>AUTHORIZED DISCLOSURES</b></p> <p>If the individual seeking the services of a CI does not know the agency that handled the adoption, they should be advised to submit a request for assistance in identifying the agency that approved the adoption to:</p> <p>NC Division of Social Services Adoption Review Team 820 South Boylan Ave. Mail Service Center 2425 Raleigh, NC 27699-2425 Attn: CI Services</p> <p>If the individual knows the agency that handled the adoption, they may contact that agency directly. However, agency participation in CI services is voluntary.</p> <p>A complete listing of county departments of social services, agencies can be found online at: <a href="https://www.ncdhhs.gov/divisions/social-services/local-dss-directory">https://www.ncdhhs.gov/divisions/social-services/local-dss-directory</a>.</p>

However, they should begin with the agency that approved the adoption.</p> <p>If the individual has solicited the services of a CI agency, and the CI agency requires the assistance of the Division in obtaining this agency information, the CI must provide to Adoption Review Team a copy of the Confidential Intermediary Agreement and Application for Confidential Intermediary Services. The Adoption Review Team will need these documents to show proof of the CI’s involvement and to search for requested information. The Adoption Review Team will research the information and provide the name of the county department of social services or licensed adoption agency that handled the adoption.</p> <p>If the county department of social services or licensed adoption agency cannot locate the records for the client, the agency can submit a request by fax to the NC Division of Social Services, Adoption Review Team, attention CI Services. The fax number is 919-733-1123.</p> <p>An agency acting as a CI agency but that did not approve the adoption can request information directly from the county department of social services or licensed agency that did approve the adoption. The CI agency must provide to that agency a copy of the Confidential Intermediary Agreement and Application for Confidential Intermediary Services forms. The agency will need these documents to show proof of the CI’s involvement and to search for requested information.</p> <p>The agency that approved the adoption may require the CI agency to pay a fee for their search for the requested information, pursuant to G.S. § 48-9-103 (g), which states: “the Department, the court, or agency may charge a reasonable fee for locating and making copies of a report or information.</p> <p>If the CI agency is unable to obtain needed information from the agency that approved the adoption, the CI agency should contact the NC Division of Social Services, Adoption Review Team.</p>	

## Confidential Intermediary

<p>Any CI agency can request information directly from the NC Division of Social Services, Adoption Review Team, even if they were not the agency that approved the adoption. The agency will need to submit a copy of the Confidential Intermediary Agreement and Application for Confidential Intermediary Services and forms. The forms can be mailed or faxed to the Division.</p> <p><b>WHEN A SEARCH RESULTS IN SUCCESSFUL LOCATION</b></p> <p>If the CI agency locates the individual they are searching for, the CI agency will determine their desire to provide updated non-identifying medical information, to share identifying information and/or to have personal contact. If the person being contacted agrees to releasing information or to the CI agency facilitating contact with the other party, both that person and the initial applicant for CI services will be required to sign Consent to Release of Information and/or Contact forms (DSS-5032-ia).</p> <p>If the identified party consents to release of identifying information, updated non-identifying medical information and/or personal contact, they will also be required to sign the Release of Liability and Agreement to Hold Harmless form. The Confidential Intermediary will then facilitate this sharing of information or contact as specified by the person being contacted. Depending on what is specified, the Confidential Intermediary will provide:</p> <ul style="list-style-type: none"> <li>• Non-identifying health information in writing.</li> <li>• Identifying information in writing.</li> <li>• Facilitation of contact between parties.</li> </ul> <p>Face to face contact shall take place at the CI agency in an appropriate space, such as a visitation room. Telephone contact may be an option.</p> <p>Staff facilitating the contact should provide introductions and remain available to any of the participants.</p> <p>The Confidential Intermediary is not responsible for any contact between parties beyond the first contact.</p> <p>If the identified party refuses to participate in the sharing of identifying information or if the search does not uncover any possible contact information, the Confidential Intermediary must document this and provide a response in writing to the person originally seeking</p>

<p>information or contact. The Division recommends that this should not exceed 90 days without a subsequent agreement between the Confidential Intermediary and the client.</p> <p>It is important to recognize that the CI law does not open confidential adoption records. Nothing in CI law allows the release of any adoption records in the possession of an agency or the Division, or information from those records, except non-identifying information that may be released pursuant to G.S. 48-9-103. The adoption records remain confidential and disclosure is subject to court order under G.S. 48-9-105.</p> <p><b>WHEN A SEARCH RESULT DETERMINES AN INDIVIDUAL IS DECEASED</b></p> <p>If the CI search reveals that the person who is the subject of the search is deceased the Confidential Intermediary may obtain a copy of the death certificate from the State Registrar and deliver it to the person who initiated the search, however, collateral information obtained about the cause of death or other birth or adoptive family information may not be disclosed since consent to do so cannot be secured except upon the order of release of information to the petitioner by the Clerk of Court.</p> <p>If a birth parent discloses information to the CI about how to locate the other birth parent, the CI is obligated to obtain a notarized Consent of Release of Information and/or Contact from the other birth parent before that person’s information can be shared with the adult adoptee or lineal descendent of a deceased adoptee. The CI is not responsible for disclosure of information between parties.</p> <p><b>CONFIDENTIALITY AND STORAGE OF RECORDS</b></p> <p>CI records are confidential, and the CI agency must follow the same protocol for maintaining confidentiality and storage of CI services records as is used with closed adoption records per N.C.G.S. § 48-9-102  <a href="https://www.ncleg.net/EnactedLegislation/Statutes/HTML/BySection/Chapter_48/GS_48-9-102.html">https://www.ncleg.net/EnactedLegislation/Statutes/HTML/BySection/Chapter_48/GS_48-9-102.html</a>.</p>	

## Adoption Services Post Adoption Services

Definition	
<p>As a result of several system reforms through the MRS, SOC, statewide initiatives-and the philosophy that every child deserves a permanent family, there has been a dramatic increase in adoption of children with special needs in this country. This increase has focused attention on the needs of families after they adopt children with special needs. Some families require agency involvement throughout the child’s minority while other families require services on a periodic basis. All families need the assurance that supportive services will be available and encouragement to participate in ongoing educational and training events.</p> <p>In recognition of the need for post-adoption services in this country, Congress included a provision for adoption promotion and support services in the Adoption and Safe Families Act of 1997. North Carolina Administrative Rules 70H.0201 and 70M.0301 includes services to biological parents, adoptive parents and adopted children, or adult adoptees following entry of the decree of adoption in the definition of an adoption caseload. Post-adoption services should be designed to address issues that developed before or after the Decree of Adoption. It is not a continuation of supervision, but services provided as needed and requested by any of the parties in an adoption.</p> <p><b>The agency shall make post-adoption services available to every adoptive family, as appropriate.</b></p> <p>The Department of Social Services in the county where the family resides is the agency responsible for providing post-adoption services. This is true even if the agency neither placed the child nor supervised the placement. However, the placement agency and the resident county should work together to do what is most helpful for the family, regardless of what agency has responsibility for the child.</p>	

Protocol- What you must do	Guidance
<p><b>CHILDREN PLACED FOR ADOPTION FROM THE FOSTER CARE SYSTEM IN NORTH CAROLINA</b></p> <p><b>RECOMMENDED SERVICES:</b></p> <p><b>Information and Referral</b></p> <p>These services include responding to questions, maintaining a list of mental health providers and Medicaid providers, maintaining a list of respite care services, and providing financial assistance information or other information on issues presented by the family. Careful and individualized attention given to each family's needs, strengths and circumstances must be taken into consideration for these services to be most effective.</p>	

## Adoption Services Post Adoption Services

Protocol- What you must do	Guidance
<p>Families may be referred to some of the many websites regarding adoption services. Some of them include the National Adoption Center at <a href="http://www.adopt.org">http://www.adopt.org</a>, North American Council on Adoptable Children at <a href="http://www.nacac.org">http://www.nacac.org</a>, an extensive listing of adoption links at <a href="https://www.adopting.com/">https://www.adopting.com/</a> and the Child Welfare Information Gateway <a href="https://www.childwelfare.gov/topics/adoption/">https://www.childwelfare.gov/topics/adoption/</a>.</p> <p><b>Case Management and Service Planning</b></p> <p>Coordinating all services to child and family that are appropriate, assessable and not replicated.</p> <p><b>Advocacy</b></p> <p>Advocacy includes activism at the local and state level to evaluate needs, to maintain awareness of the issues facing adoptive families, and support for new, improved and expanded services for individuals and groups of children and families.</p> <p><b>Support</b></p> <p>The challenges of parenting special needs children may continue throughout their lives. New issues may arise as children face each developmental stage. While adoptive families are expected to take the lead in making provisions for services, agency involvement may be crucial to access needed resources and to provide support. Agency services may range from phone calls or home visits on a regular basis to intensive involvement with the family.</p> <p><b>The Provision of Non-identifying Background Information</b></p> <p>Agencies receive many requests from adopted children, adoptive parents, and biological family members for information to assist them in the search for the other party. Often those who seek information are not aware of the county or agency responsible for the placement. If the agency is unable to ascertain where the adoption took place, the agency should contact the Division of Social Services, Adoption Review and Indexing Services to see if the adoption occurred in North Carolina. If the adoption occurred in this state, the Division representative will refer the person to the public or private agency that made the placement. It is the responsibility of that agency to provide the information. (See Article 9 of Chapter 48 for the law on confidentiality of records and disclosure of information. Further law on prohibited practices in connection with adoption is in Article 10. Guidance on what can be released and to whom</p>	

## Adoption Services Post Adoption Services

<p>nonidentifying information can be given is provided in the “Legal Guides” section above).</p> <p>The National Adoption Information Clearinghouse is a resource on searching for birth relatives. Their website is <a href="http://www.childwelfare.gov/">http://www.childwelfare.gov/</a></p> <p><b>Confidential Intermediary Search</b></p> <p>Adoptees 21 years or older may request the services of private adoption agencies or county departments of social services to provide confidential search for members of their birth family to obtain and share non-identifying birth family information, facilitate contact or share identifying information with adult adoptees, adult lineal descendants with deceased adoptees and biological parents with the written consent of all parties to the contact or sharing of information. Agency may also share non-identifying information with adoptive parents of minor adoptees. There may be a fee for confidential intermediary services. See the “Confidential Intermediary Search” section above.</p> <p><b>Education</b></p> <p>Educational issues may present many challenges to adoptive parents. Support may include parent training, parent mentors, educational materials, newsletters, opportunities for attendance at local or national conferences, accompanying parents to school conferences, support groups, and respite care.</p> <p><b>Family Building Activities</b></p> <p>Examples are adoption celebrations, retreats, recreational and social events, pairing families in a buddy system, retreats for adopted parents and/or children, and similar planned events that provide opportunities for adoptive families and children to meet others and develop networks for support. Camps or similar events to provide opportunities for adoptees to be with siblings who are adopted by other families or who remain in foster care are other examples of family building activities.</p> <p><b>Respite Care</b></p>	

## Adoption Services Post Adoption Services

Protocol- What you must do	Guidance
<p>A respite care program involves planned activities that allow parents and children to have time for themselves. Occasional childcare, weekend visits or some of the family building activities offer opportunities for parents and children to have time away from each other. Often foster parents who have adopted children have networks for respite care. The agency can assist in providing county funds or formalizing a respite care program with the foster parent association, mental health or other childcare providers in the community. If a child receives adoption assistance, the vendor payments can be used for respite care.</p> <p><b>Intensive and Long-term Family Services</b></p> <p>In collaboration with mental health services, multidisciplinary teams can pool knowledge and resources to meet the physical, psychological, and behavioral needs of children and families. The concerted efforts by caring professionals may be the only means of keeping an adoption intact.</p> <p><b>RETURN TO FOSTER CARE FOLLOWING AN ADOPTION DISSOLUTION</b></p> <p>As with all other children who enter the foster care system, eligibility and determination of eligibility is based on the circumstances of the child’s family. The fact that a child received IV-E adoption assistance benefits in the adoptive home does not make him/her eligible for IV-E benefits in foster care. However, if a child received IV-E adoption assistance benefits in a prior adoption, he/she is eligible for IV-E adoption assistance in a subsequent adoption regardless of the source of foster care funding following the dissolution. (<a href="#">Refer to Appendix 3.6: Adoption Assistance Funding</a> for funding sources for readopted children).</p> <p><b>RESOURCES FOR FAMILIES OF CHILDREN WITH SPECIAL NEEDS WHO WERE PLACED FOR ADOPTION BY PUBLIC OR PRIVATE AGENCIES IN NORTH CAROLINA</b></p> <p><b>MONTHLY ADOPTION ASSISTANCE CASH PAYMENTS</b>  <a href="#">Refer to Appendix 3.6: Adoption Assistance Funding.</a></p>

## Attachment E: Preparation for Finding an Adoptive Family

THERE ARE SEVERAL KEY AREAS TO COVER IN MAKING EFFORTS TO FIND AN ADOPTIVE PLACEMENT FOR A CHILD IN A TIMELY MANNER. THESE STEPS SHOULD BEGIN AS SOON AS ADOPTION IS IDENTIFIED AS THE PERMANENCY PLAN. Steps 1 & 2 should be completed within 30 days of adoption becoming the plan goal. Steps 3-5 should be done simultaneously. Step 6 should be evaluated and used as needed. A copy of **Child Profile** is also being provided for your review.

1. The child's eligibility for adoption assistance must be reviewed-and either established or denied.
  - a. The child's worker should review the criteria for subsidy as outlined in Appendix 3.6 of the NC Child Welfare manual. If the child has been in foster care and has been abused and/or neglected it is likely that eligibility can be established easily.
  - b. Attention must be given to the criteria in reference to the type of funding program. This is related to the situation and funding of the child in foster care.
  - c. The decision in reference to eligibility must be made prior to placement-usually by the review committee.
  - d. Documentation of both funding program eligibility and basis for the child's eligibility for subsidy must be documented in the child's record.
  - e. A decision to deny subsidy must also be documented.
2. A comprehensive Child Pre-Adoptive Summary should be prepared by social workers who have knowledge of the child-this may require a collaborative effort but should be the responsibility of the present worker to coordinate. Child's background, parents' background, previous and present placement, special needs and present situation should all be included.

**The steps outlined above are critical in finding a family yet are only one part of the workers responsibility. While all the above is going on the worker should be preparing the child, by:**

1. Becoming thoroughly familiar with the child--including strengths, needs and background.
2. Constructing a Life book
3. Exploring attachment figures in the child's life - i.e., previous foster parents, siblings, grandparents, fictive relatives as well as biological parents.
  - a. identifying them
  - b. contacting them
  - c. enabling them to assist the child to accept adoption
4. Helping the child cope with grief and loss--beginning by recognizing the issues involved in the grief and loss cycle.
5. Identifying needed services and arranging for the child to receive them.

**The worker should also prepare the present placement family, for the process of finding a family, as well as the placement process. It is critical to involve the family in the information gathering, in the search and in the actual placement process. Care should be taken to help them deal with the child's behavior as well as their own feelings of grief-and/or joy.**

**NOTE:** This includes any possible father who has not executed a consent or denial of paternity, had his rights terminated or been judicially determined not to be the father. It also includes notice to (1) the spouse of the petitioner if the joinder requirement may be waived, but effective for petitions filed on or after 10/01/05, this notice may be waived and (2) a minor whose consent has not been required by the clerk.

When notice is given and a possible father does not respond within 30 days, 40 days to notice by publication, G.S. 48-3-603(a)(7) provides that his consent to the adoption is not required. Effective with petitions filed on or after 10/01/05, the clerk must enter an order finding his consent is not necessary because he did not respond under G.S. 48-2-207. If publication is used, the petitioner must file an affidavit showing due diligence in trying to find the father. Rule 4(j1) and (j2) of the Rules of Civil Procedure.

If a father or possible father does respond the clerk must hold a hearing to determine whether his consent is required under G.S. 48-3-601, setting out steps' fathers must take to preserve their rights in an adoption. This hearing may be transferred to a district court judge pursuant to GS 48-2-601(a1).

- Notice of adoption proceeding mailed or otherwise delivered by Clerk no later than five (5) days after petition filed to any agency that has undertaken but not yet completed a Preplacement Assessment and any agency ordered to make a report to the court. G.S. 48-2-403.

- Order for Report on Proposed Adoption (DSS-1807)**

If preplacement assessment filed with petition and child was placed with petitioner(s) after the completion of that assessment, order for report on proposed adoption is mailed or delivered within five (5) days after petition filed to agency that prepared assessment or another agency. G.S. 48-2-403; 48-2-501

- If preplacement assessment filed with petition but child was placed with petitioners(s) before completion of that assessment, order for report on proposed adoption is not sent for at least 30 days after completion of preplacement assessment. G.S. 48-3-301(c)(2).

- If no preplacement assessment filed with petition, then order for report on proposed adoption is not sent for at least 30 days after completion of preplacement assessment. G.S. 48-3-301(c)(2).

- Report on **Proposed Adoption (DSS-1808)** including any supplemental reports filed if the initial report indicated a concern with the adoption and the time for final decree was extended to allow resolution of those concerns. The supplemental report must indicate whether and how the concerns have been satisfied. G.S. 48-2-502 and 503.

- Affidavit-Disclosure of Fees & Expenses (DSS-5191)** accounting for any payments or disbursements made or agreed to be made by petitioner in connection with adoption. Must include amount of each payment or disbursement and name and address of each recipient. Must be filed at least 10 days before entry of decree of adoption in order to give clerk time to review.
