

**DSS ADMINISTRATIVE LETTER
CHILD WELFARE SERVICES CWS-AL-05-09**

TO: COUNTY DIRECTORS OF SOCIAL SERVICES

**ATTENTION: CHILDREN'S SERVICES PROGRAM MANAGERS AND SUPERVISORS
CHILDREN'S SERVICES SOCIAL WORKERS**

DATE: May 30, 2009

**SUBJECT: CHANGES TO THE CENTRAL REGISTRY SYSTEM AND CORRESPONDING
POLICY UPDATES**

EFFECTIVE DATE: Immediately

BACKGROUND

The Division's Child Welfare Policy and Consultation team has been working closely with the Performance Management, Reporting and Evaluation team to improve the collection of data through the Central Registry, DSS-5104. The DSS-5104 and the User's Manual have been updated to include the collection of data required by the federal government and data that will assist counties in providing improved services to children and families. The changes to the DSS-5104 will be effective January 30, 2009. The updated DSS-5104 will be available on-line by the same date.

The specific changes to the DSS-5104 are listed below along with instructions for completing the new items. Some of the changes include the creation of two new fields, which has changed the numbering of the fields, so it will be especially important to pay attention to the field numbers as you complete the form.

In addition to the changes to the Central Registry System, the User's Manuals for the DSS-5104 and the Responsible Individuals List, DSS-5104a, will no longer be located in Chapter VIII, Sections 1426 and 1427. The manuals will be located with Performance Management, Reporting and Evaluation. The anticipated date for this change to take place will be March 01, 2009, and you will be notified by a terminal message and an Administrative Letter when that change occurs. Until the revised User's Manuals are published, please refer to this Administrative Letter for instructions for completing the DSS-5104. The Responsible Individuals List User's Manual and the DSS-5104a have not been changed as a result of this process.

In Chapter VIII, Section 1407 (Structured Intake), V. Instructions for Completion of Structured Intake Report, one instruction will be added to policy as a result of the changes to the Central Registry. This does not require a change to the DSS-1402, CPS Intake Report Tool. When documenting information regarding the parent/caretaker, you are asked to inquire and to document whether or not the parent/caretaker is affiliated with the military. This information can be documented under section 1 of the DSS-1402, under the employment/school field. This instruction will be incorporated into policy at the next update of chapter VIII.

For those DSS-5104's that have not been keyed into the Central Registry prior to this change please follow the following instructions. The DSS-5104 may still be keyed into the system as the two new fields are not required for entry. However, as the field numbers have changed you will need to be aware of the new field number associated with the information you are entering. For instance Field 29 was Type Found. Type Found is now Field 30. You will still enter the information for the Type Found field the same way just under Field 30.
