I. BACKGROUND

The Deficit Reduction Act of 2005 (DRA) became law effective February 8, 2006. The DRA amended section 1917 of the Social Security Act (the Act) to make several changes concerning resources and transfers. Refer to Change Notice 24-07, MA-2240, Transfer of Assets, MA-2241, Transition Policy for In-Home Health Services & Supplies, MA-2242, Home Equity Value & Eligibility For Institutional Services, and MA-2245, Undue Hardship Waiver For Transfer Of Assets.

II. CONTENT OF CHANGE

A. MA-3110, Definitions, lists additional and revised definitions.

1. Actuarially Sound – A promissory note, annuity, mortgage or loan established to pay off the entire asset value over the actual or expected lifetime of the annuitant/lender is actuarially sound. The annuitant/lender is expected to live long enough to receive an amount that is equal to or greater than the amount originally invested. The total amount of proceeds must be designed to be paid out in equal regular payments during the term of the agreement, with no deferral and no balloon payments.

2. Annuitant – An annuitant is the person who receives the income payments of an annuity policy at maturity date for life or for a specified period. The annuitant may or may not be the same as the owner.

3. Annuitize – Converting the principle of an annuity into a series of payments.

4. Annuity - An annuity is a type of trust. An individual pays an entity a lump sum of money in return for the right to receive fixed, periodic payments, either for life or a term of years. This includes the investment portion of a single premium pure endowment life insurance policy.
5. Asset – For purposes of transfer of assets, is resources and income.

6. Beneficiary of an annuity – The beneficiary is the person who receives any benefit that is paid upon death of the annuitant prior to the maturity date of the annuity.

7. Child Tax Credit (CTC) - Supplement to the earnings of low income taxpayers with earned income. Must be a parent, step-parent, grandparent, or foster parent with a dependent child. The child tax credit may provide a refund to individuals even if they do not owe any tax. There is no advance payment with CTC.

8. Compensation - Something received as payment for an asset. Payment is usually considered to be cash, but other forms of payment include in-kind income, real or personal property, support and maintenance, services, or assumption of a legal debt.

9. Cost of Care - The amount of money charged to an individual for NF or ICF-MR level of care, a swing bed, or inappropriate level of care bed in a hospital, or waiver services for the Community Alternatives Program (CAP).

10. Demonstrated Hardship - The a/r, spouse or personal representative proves through the greater weight of evidence that a denial of institutional services due to excess home equity value will cause the a/r an undue hardship.

11. Demonstrated Hardship Waiver- An individual who incurs a sanction for transfer of assets and is denied or terminated from Medicaid payment of institutional services may request this sanction be waived and can demonstrate the sanction will cause the a/r an undue hardship.

12. Equity - The equity of real or personal property is the current market value (see definition above) less any encumbrances (mortgages, liens, or judgments) on the property.

13. Focused Risk Management Program (FORM) – (formerly Medication Therapy Management) Medicaid recipients participating in FORM may have their prescription overridden at the discretion of the pharmacist. The pharmacists coordinates, integrates and communicates medication regimen discussions with the recipient’s primary care provider and upon consensus, translates the information to the recipient.

15. In-Home Health Services and Supplies – Medically necessary services provided to an applicant/recipient (a/r) by a Medicaid certified provider can be sanctioned due to a transfer of assets. These services include the following:

e. Personal Care Services (PCS) are personal care activities such as bathing, toileting, monitoring vital signs, housekeeping and home management tasks essential for maintaining the recipient’s health performed by an in-home aide in a private residence.

PCS services provided to individuals in an ACH are not subject to this policy. Refer to **MA-2240**, Transfer of Assets, in the Aged, Blind, and Disabled Medicaid manual for an explanation of services.

16. Institutional Living Arrangement – Institution or establishment that provides food, shelter and some treatment to 4 or more persons who are not related to the owner. This includes nursing facilities, group homes, orphanages, adult care homes, and residential treatment facilities.

18. Institutional Services – These services include services provided in a nursing facility (NF), intermediate care facility for the mentally retarded (ICF-MR), swing bed or inappropriate level of care bed, services provided through the Community Alternatives Program (CAP). These services can be sanctioned due to a transfer of assets. These services do not include acute hospital care regardless of length of stay.

22. Lookback Date - The earliest date in which a transfer of assets for less than fair market value can be assessed. The lookback date varies depending on when an individual applies for Medicaid, is admitted to a NF or ICF/MR or requests CAP services. Sanctions can be determined for transfers that take place on or after the lookback date.

29. **Sanction Period** - The period of time in which an a/r is ineligible for Medicaid payment of institutional services and in-home health services. 30. **Transfer** - To change ownership or title from one person(s) to another. A transfer also occurs when an individual takes action to waive or renounce assets or an inheritance to which he is entitled or when an individual takes any action that eliminates his ownership or reduces his control of a asset. For example, changing fee simple property to tenancy-in-common property or adding an additional owner to a savings account is considered a transfer.

31. **Undue Hardship** – The application of the sanction period would deprive the individual of medical care, such that the individual’s health or life would be endangered; or of food, clothing, shelter, or other necessities of life.
